Buffalo United Charter School

Independent Auditors' Report on Communication of
Internal Control Matters

June 30, 2026

PKF O'CONNOR DAVIES
ACCOUNTANTS AND ADVISORS

Board of Trustees
Buffalo United Charter School

In planning and performing our audit of the financial statements of Buffalo United Charter School (the "School") as of and for the year ended June 30, 2026, in accordance with auditing standards generally accepted in the United States of America, we considered the School's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a deficiency in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

Our consideration of internal control was for the limited purposes described in the first paragraph and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified.

We did not identify any deficiencies in internal control that we considered to be material weaknesses.

This communication is intended solely for the information and use of management, the Board of Trustees, federal, state, and local awarding agencies, The Charter Schools Institute of the State University of New York, The State Education Department of the State University of New York, and others within the School and is not intended to be used by anyone other than these specified parties.

We would like to take this opportunity to acknowledge the courtesy and assistance extended to us by the personnel of the School during the course of our audit.
