

Pembroke Academy 2022-2023 Educational Goals

The State School Aid Act currently requires districts to administer benchmark assessments to all K-8 students in reading and mathematics. These goals must measure proficiency or growth, and progress towards the goals should be measurable mid-year and by the end of the year. That means the assessment needs to be administered fall, winter, and spring. All students must take the initial assessment within the first nine weeks of the beginning of school.

A report sharing progress towards goals should be shared with Boards and made public in February and again by the last day of school. This will be made accessible to the public through the transparency reporting link on the district's website.
