Begin services for EL and Homeless scholars quickl...

Status: ACTIVE

Statement: Our goal is to identify 100% of students that qualify for EL services or are experiencing homelessness, in order to improve access to and knowledge of programming and begin appropriate services.

Created Date: 01/07/2025

Target Completion Date: 01/14/2027

Strategies:

(1/1): Engaging All Families to Enhance Learning

Owner: Theresa Lindecker

Start Date: 01/07/2025

Due Date: 01/14/2027

Summary: Effective family engagement requires meeting families where they are at, not where others want them to be. This means meeting the needs of all families because all voices have value, and the voices of families is a key component to the effectiveness in their children's educational success. Traditional educational practices may not provide sufficient opportunities for all families to engage in their children's education (McIntyre and Garbacz, 2014). All families want to be engaged and supportive in their child's educational success. However, the changing needs of families and the changing nature of education may require providers, programs, staff, school and families to rethink what might have worked in the past or traditional methods of engagement to reach more families in authentic methods that honor all learners and their homes. Tailored services are responsive to differences in race, ethnicity, culture, language, religion, education, income, family configuration, geographic location, ability, and other characteristics that contribute to human uniqueness (Donovan & Cross, 2002). Research supports the value of family engagement as a predictor of academic achievement and the need to design interventions that target parenting practices for the highest risk students.

Improve Middle School Math Proficiency by 10%

Status: ACTIVE

Statement: Our goal is to improve middle school math proficiency rates on interims and state assessments by 10% by 2028.

Created Date: 04/10/2025

Target Completion Date: 10/31/2028

Strategies:

(1/2): Appropriately support fact fluency

Owner: Theresa Lindecker

Start Date: 04/17/2025

Due Date: 10/31/2028

Summary: Spaced practice for fluent retrieval of basic facts should occur AFTER conceptual understanding and the development of appropriate strategies for finding unknown facts using known facts. At this point, students benefit from frequent, spaced, and short fluency practice that includes immediate corrective feedback and slowly adds new facts to a student's known facts. Strategies that track facts a student has mastered are most effective. Research recommends to devote about 10 minutes per intervention session on fact fluency and to structure practice so as to minimize student anxiety.
