

**National Heritage Academies' (NHA) Teacher Evaluation Tool
Teacher Evaluation: Postings and Assurances
Non-State Approved Evaluation Tool; District-Approved Evaluation Tool**

Per MCL 380.1249: Beginning with the 2016-2017 school year, a school district, intermediate school district, or public school academy shall post on its public website specific information about the evaluation tool(s) used for its performance evaluation system for teachers. Complete language (including requirements) for MCL 380.1249 can be found [here](#).

This evaluation tool has been approved by the district, as the result of a review process implemented with fidelity. The contents of this document are compliant with the law laid forth, specifically pertaining to the National Heritage Academies' Teacher Evaluation Tool.

Research Base for the Evaluation Framework, Instrument, and Process
[Section 1249(3)(a)]

National Heritage Academies' locally developed evaluation tool and observation protocol uses components from Doug Lemov, Robert J. Marzano and Charlotte Danielson, internationally recognized experts in the area of teacher effectiveness and specializing in the design of teacher evaluations.

Identification and Qualifications of the Author(s) [Section 1249(3)(b)]

Doug Lemov

Doug Lemov is the author of the international best seller *Teach Like a Champion* and *Teach Like a Champion 2.0* - books that offer effective teaching techniques to help teachers become champions in the classroom. He is also the Managing Director of the Teach Like a Champion Team with Uncommon Schools, a non-profit charter public school company that manages 42 urban charter schools located in six regions: Boston MA, Camden NJ, Newark NJ, New York City, Rochester NY and Troy NY. He is also the coauthor with Teach Like a Champion Team colleagues of *Practice Perfect*, and *Reading Reconsidered: A Practical Guide to Rigorous Literacy Instruction*. His work has established a set of techniques and a shared vocabulary for educators across the world.

Robert J. Marzano

Robert J. Marzano, PhD, is cofounder and Chief Academic Officer of Marzano Research in Colorado. A leading researcher in education, he is a speaker, trainer, and author of more than 40 books and 300 articles on topics such as instruction, assessment, writing and implementing standards, cognition, effective leadership, and school intervention. His books include *The Art and Science of Teaching* and *Effective Supervision*. His practical translations of the most current research and theory into classroom strategies are internationally known and widely practiced by both teachers and administrators.

Charlotte Danielson

Charlotte Danielson is a recognized expert and educational consultant in the areas of teacher quality and evaluation, curriculum planning, performance assessment, and professional development. She developed and trained extensively in the areas of teacher observation and assessments. Her work focuses on the use of the framework, a clear description of practice, to promote professional conversations and learning. She advises State Education Departments and National Ministries and Departments of Education, both in the United States and overseas.

Evidence of Reliability, Validity, and Efficacy [Section 1249(3)(c)]

NHA demonstrates that our teacher evaluation/observation tool meets the standards considered valid and reliable by:

1. Providing a professional development training for all new deans on using the teacher rubric for evaluations/observations. This initial training will calibrate evaluators on the use of NHA's evaluation/observation tool. This initial training will take place each year by **September 30**.
2. During the training, deans will:
 - Review the evaluation rubric in depth.
 - Write down their ratings during observation of a video watching a teacher in his/her classroom.
 - Have conversations with one another to calibrate their ratings and discuss the reasoning behind why they provided those specific ratings to the teacher.
3. To demonstrate reliability among deans, after the training, deans will watch another teacher video and receive an assessment on their use of the evaluation/observation tool. Deans will watch the video and answer a set of questions about their observation. Each of the deans that participate will receive a score.
4. NHA will analyze the data from the video exercise for reliability and the ratings assigned by different evaluators observing the same lesson to ensure there is at least 70% interrater agreement.
5. NHA will provide similar training to new deans on the evaluation rubric.
6. To guarantee our evaluation rubrics are valid and we are measuring the right thing, we will annually review the correlation of our teachers' evaluation ratings with student growth scores.

If there aren't changes with our evaluation rubrics, we plan to analyze every three years to determine the reliability and validity of NHA's teacher evaluation/observation tool.

NHA Teacher Evaluation Framework and Rubric [Section 1249(3)(d)]

The NHA evaluation system for teachers has six competencies which make up the Classroom Framework: (1) Classroom Culture, (2) Planning, (3) Teaching, (4) Assessing, (5) Quality of Student Learning, and (6) Professional Accountabilities. Competencies in classroom management, instructional and professional practices is determined through multiple observations, feedback and coaching. This system allows for a fluid discussion around performance and informs professional development goals and opportunities for our teachers.

The annual evaluation will include:

Annual Evaluation:	
Competencies	Indicators
Classroom Culture	<ul style="list-style-type: none">• Building Positive Relationships• Physical Environment• Routines and Procedures• Student Behavior and Moral Focus
Planning	<ul style="list-style-type: none">• Identify and Analyze the Complexity of Standards• Instructional Alignment• Pacing• Differentiated Planning
Teaching	<ul style="list-style-type: none">• Instructional Rigor• Cognitive Engagement• Use of Time• Personalized Instruction
Assessing	<ul style="list-style-type: none">• Implementing Assessment Strategy• Analyze Data• Actionable Feedback
Quality of Student Learning	<ul style="list-style-type: none">• Positive Impact on Student Learning
Professional Accountabilities	<ul style="list-style-type: none">• Dependability• Core Values• Communication• Teamwork

For a detailed teacher rubric, click [here](#).

Description of Process for Conducting Classroom Observations, Collecting Evidence, Conducting Evaluation Conferences, Developing Performance Ratings, and Developing Performance Improvement Plans [Section 1249(3)(e)]

NHA Teacher Evaluation Process

All NHA teachers are evaluated annually by their assigned dean. The NHA Teacher Evaluation Tool – the Employee Performance System (EPS) – is used to enter ratings on each indicator. Once all ratings have been entered and finalized, the

dean uses the evaluation system to facilitate conversation around clear expectations for performance and foster continuous development.

The evaluation is just one component of a larger process that occurs throughout the year. This process aides leaders in gathering evidence for end-of-year evaluations and includes:

Ongoing walk-through observations

One-on-one meetings (O3s)

Feedback

Mid-year self-assessment

Professional development: goal setting and progress monitoring (including professional development plans)

Full Lesson Observations (at least two per school year, the 2nd is a formal mid-year check-in)

Conversations around continual improvement

End-of-year evaluations

Information from the evaluation system contributes to decisions regarding promotion, compensation and employment decisions, in addition to providing a platform for ongoing conversation between deans and teachers. The evaluation also informs professional development for all employees.

Performance rating levels and evaluation scale

All teachers use the following performance ratings:

Ineffective	Developing	Effective	Exemplary
Below expected performance level	Approaching expected performance level	Meets expected performance level	Model to other staff and shares knowledge

The Teacher Evaluation Rubric has criterion-referenced progressions of performance expectations. Leaders, when evaluating teachers, will individually consider each teacher and review the rubric beginning at the left "Ineffective" column and progressing to the right "Exemplary" column. Teachers need to fulfill each performance measure in its entirety before progressing to the next level. Evaluators will provide a rating of either Ineffective, Developing, Effective, or Exemplary in each of the 20 indicators above.

NHA Teacher Observation Process

Leaders will conduct at least two full lesson observations per year. The second full lesson observation is considered a mid-year progress report for all teachers. Teachers can be observed on any area within the Classroom Framework on a daily basis. NHA requires all observations to be at least 30 min in duration, one of which must be unannounced, per state guidelines.

National Heritage Academies utilizes the Interactive Framework (IF) tool which aides in the use of the Classroom Framework as a blueprint to grow teachers. Teachers are observed by their assigned dean on each indicator on the Classroom Framework and rated within the IF based on the evidence the dean has to support the current rating. Some areas in which leaders observe teachers are on lesson plans, pupil engagement, instructional practice and how they implement their assessment strategy. Teachers receive results of observations via email almost immediately (within a week at the latest) and best practice is that discussions happen in the next scheduled one-on-one (O3) meeting.

All teachers receive an individualized Development Plan within the IF. The plan is created based on professional development goals that are set by the leader and teacher. Goals are clearly marked in the IF and action steps and progress toward goals are documented within the tool.

Description of Plan for Providing Evaluators and Observers with Training [Section 1249(3)(f)]

Calibration is important for all evaluators at NHA. NHA leaders review the evaluation rubrics together at the beginning of each school year to ensure that performance measures within each rating level on the rubric means the same thing to everyone. This increases rater reliability and consistency, and helps drive performance results.

Prior to the start of school, teachers also receive training on the evaluation rubric by approved trainers through NHA. All approved trainers are educators that have received in-depth training on NHA's evaluation rubrics.

2018-19 TEACHER EVALUATION RUBRIC

Classroom Culture		Teacher leads a self managing classroom by building positive relationships, maintaining physical space, sustaining classroom routines and procedures, and holding students accountable to behavioral expectations.			
Indicators	Ineffective	Developing	Effective	Exemplary	
<p>Building Positive Relationships: Teacher builds relationships with and among students based on mutual respect, trust, and appreciation to create a safe environment for all.</p>	A) Teacher does not attempt to build relationships or attempts at building relationships are not successful at relationally engaging students.	B) Teacher develops and teaches expectations for respectful interactions among students. C) Teacher demonstrates care and respect in interactions with all students.	D) Teacher and student interactions are intentionally planned and are focused on creating personal connections. E) Students demonstrate care and respect for the teacher and one another.	F) Students collaborate and engage in positive, supportive relationships with one another.	
<p>Physical Environment: Teacher optimizes the physical space of the classroom for student learning by maintaining a clutter free and print-rich environment, providing access to materials, as well as arranging space for movement and collaboration.</p>	A) Teacher does not maintain physical space in a way that optimizes student learning.	B) Teacher maintains a clutter free environment. C) Teacher purposefully arranges the learning space. D) Teacher arranges materials for students to access.	E) Teacher arranges the learning space in a way that optimizes movement, collaboration (student-student, teacher-student) and presentation. F) Teacher creates a print-rich environment that comprises a majority of authentic student or teacher created materials along with real life materials (maps, newspaper, etc.).	G) Students utilize materials and furniture arrangement to further their learning. H) Students self-manage and contribute to maintaining the cleanliness and order of the classroom.	
<p>Routines and Procedures: Teacher establishes, models, and practices effective classroom routines and procedures that allow students to move seamlessly throughout the day without disruption of learning.</p>	A) Teacher has not effectively taught classroom routines and procedures.	B) Teacher has established basic classroom routines and procedures.	C) Teacher maximizes instructional time by effectively upholding classroom routines and procedures.	D) Students are motivated to meet expectations and follow routines and procedures without prompting.	
<p>Student Behavior and Moral Focus: Teacher establishes, models, and practices high behavioral expectations for all students including implicit and explicit teaching of Moral Focus virtues in order to create a self-managed classroom.</p>	A) Teacher does not clearly establish behavioral expectations.	B) Teacher establishes, models, and practices behavioral expectations. C) Teachers explicitly teaches Moral Focus virtues through lessons and activities.	D) Teacher effectively anticipates and responds to student behavior. When appropriate, teacher references Moral Focus virtues. E) Teacher uses positive and proactive strategies to increase student motivation, engagement, and positive behavior. F) Students are able to identify and define the monthly Moral Focus virtues, including examples of behaviors that exemplify them.	G) Students are respectful of one another and self-correct off-task or disruptive behavior. H) Students exemplifies Moral Focus virtues in their behavior.	

- **Ineffective - Below expected performance level**
- **Developing - Approaching expected performance level**
- **Effective - Meets expected performance level**
- **Exemplary - Model to other staff and shares knowledge**

2018-19 TEACHER EVALUATION RUBRIC

Planning				
Teacher plans for instruction by identifying and analyzing standards to be taught throughout the year, aligning instructional resources and activities to those standards, and preplanning differentiated opportunities to meet individual learning needs.				
Indicators	Ineffective	Developing	Effective	Exemplary
Identify and Analyze the Complexity of Standards: Prior to instruction, teacher identifies standards to be assessed and analyzes their complexity to understand the appropriate level of rigor.	A) Teacher does not identify the standards to be taught and assessed. B) Teacher does not analyze standards to determine meaning, level of rigor, and connection to curricular resources.	C) Teacher identifies the standards to be taught and assessed. D) Teacher analyzes existing assessments and understands how each assessment item measures key vocabulary, skills, and/or performance of the standards.	E) Teacher understands and can articulate the scope and sequence of standards to be taught throughout the year. F) Teacher understands the complexity of standards and the various levels of rigor within each standard.	G) Teacher indicates misconceptions students may have related to each standard. H) Teacher understands and intentionally applies their knowledge of the vertical alignment of standards from grade to grade.
Instructional Alignment: Teacher identifies weekly student learning objectives and aligns curricular resources, engagement strategies, key questions, activities, and assessments to maximize student learning.	A) Teacher's instructional planning lacks clarity of alignment between lesson purpose, activities, instructional organization, and assessment.	B) Teacher bases instructional planning on existing curricular resources without thoroughly processing their alignment to learning objectives.	C) Teacher's instructional planning demonstrates an intentional alignment of standards, weekly learning goals, curricular resources, activities, and assessments.	D) Teacher is adept at responding to the pacing needs of students and demonstrates flexibility in decision making regarding learning objectives, while maintaining instructional alignment.
Pacing: Teacher adheres to a year-long plan and assures all content standards are taught by effectively pacing units and weekly lessons.	A) Teacher's instructional planning does not reflect understanding and knowledge of the grade level content standards or consideration of the instructional time needed for each standard throughout the year.	B) Teacher relies on scope and sequence provided in curricular resources to plan delivery of content standards.	C) Teacher effectively plans unit and weekly lessons based on knowledge and understanding of grade level content standards and the time available to ensure students' progress towards mastery.	D) Teacher flexibly paces instruction based on monitoring of individual student progress towards mastery of the grade level content standards.
Differentiated Planning: Teacher intentionally aligns and adjusts instruction based on lesson objectives and assessment results to individual, small group, and whole group learning needs.	A) Teacher's instructional planning does not demonstrate accommodation of differentiated student learning needs.	B) Teacher accesses and uses curricular resources to provide correctives, practice, and extensions based on assessed individual, small group, or whole class learning needs.	C) Teacher effectively plans scaffolded building blocks to lead students from their current assessed level of learning to the achievement of individual learning goals.	D) Teacher tracks student learning, provides organized and flexible student grouping, and continuously revises individual learning goals.

- **Ineffective - Below expected performance level**
- **Developing - Approaching expected performance level**
- **Effective - Meets expected performance level**
- **Exemplary - Model to other staff and shares knowledge**

2018-19 TEACHER EVALUATION RUBRIC

Teaching	Teacher delivers content at a level of rigor that challenges students, cognitively engages them, intentionally uses all time for learning, and personalizes instruction.			
Indicators	Ineffective	Developing	Effective	Exemplary
Instructional Rigor: Teacher communicates measurable learning goals and delivers content that is challenging to each student and gives them opportunities to engage in higher order thinking processes, so that they may interact with the content in a deep and meaningful way.	A) Teacher does not communicate the lesson objective for the students. B) Teacher questioning and assignments reflect a lack of rigor (i.e., basic recall of knowledge, single word responses, etc.).	C) Teacher incorporates the use of academic vocabulary. D) Teacher clearly communicates (verbally or in writing) lesson objectives for students. E) Teacher questioning and assignments reflect an attempt at rigor; however, opportunities for students to engage with content using higher order thinking processes are missed.	F) Students are able to articulate the learning objective and how activities align. G) Teacher identifies for students critical information in the lesson and links it to previously learned content. H) Teacher scaffolds content in the right amount and complexity for student processing.	I) Teacher requires students to engage in elaborated communication (written or verbal) and/or to process new information and draw inferences from the new content. J) Students connect lessons, content, and content application with other disciplines, real-world experiences and/or abstract concepts.
Cognitive Engagement: Teacher uses effective instructional strategies to cognitively engage students; creating student ownership for their learning.	A) Teacher does not effectively use instructional strategies to cognitively engage students.	B) Teacher provides complex, cognitive learning opportunities in an attempt to engage all students.	C) Teacher assures students give continuous, engaged attention to complex, cognitive learning opportunities.	D) Students self-regulate their learning and remain engaged and focused on the learning tasks.
Use of Time: Teacher demonstrates urgency for learning by pacing lesson delivery and activities in a way that maximizes the use of time and creates a balance between instruction and opportunities for student processing.	A) Teacher does not pace activities or lessons in a way that maximizes learning.	B) Teacher uses time adequately to deliver lesson content, however, students lack the appropriate amount of time to process their learning and do not remain engaged.	C) Teacher intentionally uses all time for learning through an effective balance of content delivery and activities such that students are able to process their learning through opportunities to think, speak, and write for the entire lesson.	D) Students demonstrate an urgency and sustained energy for learning throughout the lesson.
Personalized Instruction: Teacher uses preplanned corrections and extensions in a whole group, small group and individualized setting, to address deficit, grade level or advanced learning needs.	A) Teacher does not preplan or provide opportunities for corrections and extensions.	B) Teacher provides supporting activities to accommodate student needs for corrections and extensions.	C) Teacher assures that all preplanned extensions or correction opportunities include explicit instruction, the appropriate level of challenge, active engagement, and feedback.	D) Teacher provides for each student's needs as instruction flows between whole group, small group, and individual support. E) Teacher makes adjustments to instruction during the lesson to meet the needs of students.

- **Ineffective** - Below expected performance level
- **Developing** - Approaching expected performance level
- **Effective** - Meets expected performance level
- **Exemplary** - Model to other staff and shares knowledge

2018-19 TEACHER EVALUATION RUBRIC

Assessing		Teacher implements assessment strategy to understand student learning needs, provide actionable feedback and guide instructional decisions			
Indicators	Ineffective	Developing	Effective	Exemplary	
<p>Implementing Assessment Strategy: Teacher implements an intentional assessment strategy, administering common assessments (when applicable) and determining appropriate formative and summative assessments for other instructional content to gauge student mastery.</p>	<p>A) Teacher lacks understanding of the role of diagnostic, formative, and summative assessments.</p> <p>B) Teacher inconsistently administers common assessments.</p> <p>C) Teacher created assessments do not target key content standards.</p>	<p>D) Teacher uses a variety of formal and informal assessments to collect evidence of students' knowledge and skill.</p> <p>E) Teacher administers common assessments when applicable.</p>	<p>F) Teacher indicates when and how they will formatively assess each standard prior to the end of instruction assessment.</p> <p>G) Teacher uses or designs purposeful and rigorous formative and summative assessments.</p>	<p>H) Teacher works with other teachers to develop assessments and analyze assessment results.</p> <p>I) Teacher distinguishes assessment opportunities to match the full range of student needs and abilities.</p>	
<p>Analyze Data: Teacher analyzes assessment data in order to understand the effectiveness of instruction and to respond to student needs from a classroom, small group, and individual perspective.</p>	<p>A) Teacher does not effectively analyze assessment data to determine the effectiveness of instruction and make adjustments when necessary.</p>	<p>B) Teacher examines assessment data to understand students' progress towards mastery of standards.</p>	<p>C) Teacher understands where to make adjustments to instruction in order to meet the needs of each student.</p>	<p>D) Teacher analyzes assessment data results to identify common misconceptions and learning deficits and to establish flexible student groups.</p>	
<p>Actionable Feedback: Teacher provides specific, actionable feedback to students on a regular basis in order for students to monitor and adjust their learning.</p>	<p>A) Teacher may provide feedback to students, but it lacks details about what students did well and where they need to improve.</p> <p>B) Teacher provides feedback inconsistently or in an untimely manner.</p>	<p>C) Teacher provides ongoing and timely feedback, telling students what they did well and where they need to improve.</p>	<p>D) Teacher provides feedback that is specific to each student and provides action steps for students to take to accomplish learning goals.</p> <p>E) Teacher provides resources and support to students to track their own learning progress.</p>	<p>F) Students develop their own self-improvement plans based on feedback and the tracking of their own learning progress.</p>	

- **Ineffective - Below expected performance level**
- **Developing - Approaching expected performance level**
- **Effective - Meets expected performance level**
- **Exemplary - Model to other staff and shares knowledge**

2018-19 TEACHER EVALUATION RUBRIC

Quality of Student Learning

Indicators	Ineffective	Developing	Effective	Exemplary
<p>Positive Impact on Student Learning (teachers <u>with</u> data): Teacher achieves expected performance in academic proficiency and growth as measured by: (grades 3-8) state tests and (grades K-2) assessments of early literacy and numeracy.</p>	<p>A) Teacher does not achieve expected results in student academic proficiency and growth as measured by state tests.</p> <p>B) Does not make satisfactory progress toward student growth goals as measured by assessments of early literacy and numeracy.</p> <p>C) Teacher does not know or understand state test expectations or requirements.</p>	<p>D) Teacher achieves inconsistent expected performance in student academic proficiency and/or growth as measured by state tests.</p> <p>E) Teacher is making progress toward student growth goals as measured by assessments of early literacy and numeracy.</p> <p>F) Teacher is working towards having a solid understanding of state test expectations/requirements.</p>	<p>G) Teacher achieves expected performance in student academic proficiency and/or growth as measured by state tests.</p> <p>H) Teacher makes satisfactory progress toward student growth goals as measured by assessments of early literacy and numeracy.</p> <p>I) Teacher has a solid understanding of state test expectations/requirements.</p>	<p>J) Teacher exceeds expected performance in student academic proficiency as measured by state tests.</p> <p>K) Teacher exceeds student growth goals as measured by assessments of early literacy and numeracy.</p> <p>L) Has a solid understanding of state test expectations/requirements and uses data to make informed instructional decisions.</p>
<p>Positive Impact on Student Learning (teachers <u>without</u> data): Teacher provides support to increase student growth and performance on (grades 3-8) state tests and (grades K-2) assessments of early literacy and numeracy; takes an active interest in data; adjusts instruction and meets with grade-level team to identify areas for improved student growth.</p>	<p>A) Teacher does not attempt to increase student growth and performance as measured by state tests and assessments of early literacy and numeracy by any measure of effort beyond own subject area or position.</p> <p>B) Teacher takes no active interest in data and makes no attempt to adjust instruction to promote growth of students in tested subject areas.</p> <p>C) Teacher does not meet with grade-level teachers to discuss areas of need for tested subjects.</p>	<p>D) Teacher occasionally meets with grade-level teachers to discuss areas of need and then acts upon them by intentionally planning ways to increase student achievement.</p> <p>E) Teacher sometimes provides expected levels of support to increase student growth and performance as measured by state tests and assessments of early literacy and numeracy.</p> <p>F) Teacher inconsistently groups students according to data.</p>	<p>G) Teacher takes an active interest in data and tries to adjust instruction within own content area to address the data outcomes in tested subject areas.</p> <p>H) Teacher meets with grade-level teachers to discuss areas of need and then acts upon them by intentionally planning ways to increase student achievement.</p> <p>I) Teacher incorporates Academic Vocabulary from all content areas.</p>	<p>J) Teacher exceeds expected levels of support for increasing student growth and performance as measured by state tests and assessments of early literacy and numeracy in a variety of ways, including: analyzes data, meets with grade level teams to intentionally plan how to align own objectives with tested objectives.</p> <p>K) Teacher successfully adjusts instruction to support student growth in tested subjects.</p>
