### **Section 3. Comparison to Model School Wellness Policies**

Indicate the model policy language used for comparison:

X NC State Board of Education Healthy Active Children Policy

X Alliance for a Healthier Generation: Model Policy

☐ Well SAT 3.0 example policy language.

Describe how your wellness policy compares to model wellness policies.

#### Nutrition Promotion & Education

Every year, all students, K-8, shall receive nutrition education that is aligned with the North Carolina Health Education Grade Level Content Expectations and the North Carolina Merit Curriculum Guidelines for Health Education.

Nutrition education that teaches the knowledge, skills, and values needed to adopt healthy eating behaviors shall be integrated into the curriculum. Nutrition education information shall be offered throughout the school campus including, but not limited to, school dining areas and classrooms. Staff members who provide nutrition education shall have the appropriate training.

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and participation in school meal programs. Students and staff will receive consistent nutrition messages throughout school buildings, classrooms, gymnasiums, and cafeterias. Nutrition promotion also includes marketing and advertising nutritious foods and beverages to students and is most effective when implemented consistently through a comprehensive and multi-channel approach by school building staff, teachers, parents, students, and the community.

The school promotes healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs by increasing fresh fruit & vegetable choices on our menus.

#### Food & Beverage Marketing

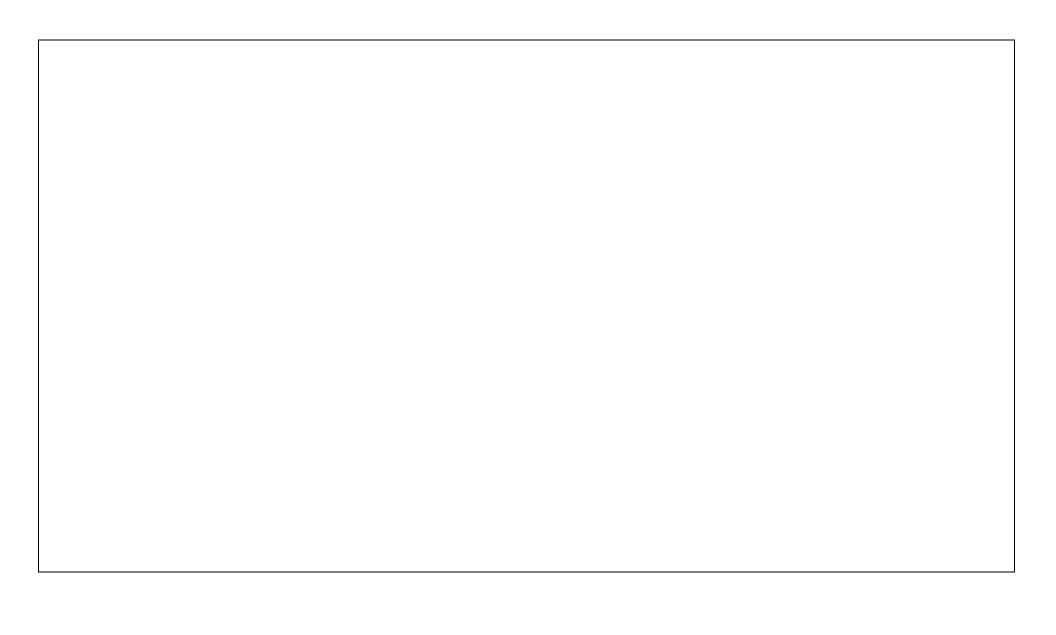

Food and beverage marketing is defined as advertising and other promotions in schools. Food and beverage marketing often includes oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product made by the producer, manufacturer, seller, or any other entity with a commercial interest in the product. It is the intent of the school to protect and promote student's health and to provide consistent health-related messaging. Any foods and beverages marketed or promoted to students on the school campus during the school day will meet the USDA Smart Snacks in School nutrition standards.

As the LEA reviews existing contracts and considers new contracts, equipment and/or product purchasing and replacement, decisions will reflect these marketing guidelines.

#### Standards and Nutrition Guidelines

The school encourage students to make nutritious food choices and ensure that all foods and beverages sold to students on the school

campus during the school day are consistent with federal and state regulations.
Physical Activity & Physical Education
The school offers physical education opportunities that include the components of a quality physical education program. Physical education shall equip students with the knowledge, skills, and values necessary for lifelong physical activity.
Physical education instruction shall be aligned with the North Carolina Physical Education Grade Level Content Expectations and the North Carolina Merit Curriculum Guidelines for Physical Education.
Students, K-8, can participate regularly in supervised physical activities, either organized or unstructured, intended to maintain physical fitness and to understand the short- and long-term benefits of a physically active and healthy lifestyle

## Section 4. Compliance with the Wellness Policy and progress towards goals

At a minimum, local wellness policies are required to include:

- Specific goals for:
  - o Nutrition promotion and education
  - o Physical activity
  - o Other school-based activities that promote student wellness.
- Standards and nutrition guidelines for all foods and beverages sold to students on the school campus during the school day that are consistent with Federal regulations for school meal nutrition standards, and the Smart Snacks in School nutrition standards.
- Standards for all foods and beverages provided, but not sold, to students during the school day (e.g., in classroom parties, classroom snacks brought by parents, or other foods given as incentives).
- Policies for food and beverage marketing that allow marketing and advertising of only those foods and beverages that meet the Smart Snacks in School nutrition standards.
- Description of public involvement, public updates, policy leadership, and evaluation plan.

Using the table below to indicate the progress made with each goal included in the Wellness Policy. The table may be used for each school separately or the district as a whole.

Tip: When developing a wellness plan, ensure activities are meeting goals by developing SMART objectives:

- **Specific:** Identify the exact area to improve.
- Measurable: Quantify the progress.
- Attainable: Determine what is achievable.
- **Realistic:** Consider resources and determine what can reasonably be accomplished.
- Time bound: Identify deadlines for goals and related tactics.

The Centers for Disease Control and Prevention (CDC) has tips for developing **SMART objectives**.

# **Local Wellness Policy Assessment**

School Name: Wake Forest Charter Academy Date: 1/9/2023

Nutrition Promotion and Education Goal(s):

Goal What do we want to accomplish?	Action Steps What activities need to happen?	Timeline Start dates	Measurement How is progress measured?	Lead Person	Stakeholders Who will be involved and/or impacted?	Meeting Goal?
Example: Food and beverages will not be used as a reward for students.	<ul> <li>a) Provide teachers with list of non-food reward examples.</li> <li>b) Discuss changes at back-to-school staff training.</li> <li>c) Follow-up mid-year to discuss challenges and determine additional communication needed.</li> </ul>	Before the beginning of next school year.	<ul> <li>Verbal check-ins with staff to ensure compliance.</li> <li>Teacher survey at end of school year.</li> </ul>	Principal	Teachers, staff, students	Yes
