Ms. Kim Bondy
South Arbor Charter Academy
8200 Carpenter Road
Ypsilanti, MI 48197

Re: Approval of COVID-19 Preparedness and Response Plan (“Plan”)

Dear Ms. Bondy:

I am pleased to inform you that the Plan for South Arbor Charter Academy (“Academy”) has been approved by The Governor John Engler Center for Charter Schools at Central Michigan University and has been transmitted by our office to the State Superintendent of Public Instruction and the State Treasurer. The Plan is effective as of the date indicated in the Plan.

To fulfill one of the required assurances, immediately add a copy of the approved Plan to the Academy’s Home Page of its website. An approved copy of the Plan is attached and can be found in Epicenter. The approved Plan constitutes a Charter Contract amendment and remains in effect as long as the Plan remains in effect.

If the Academy requires an amendment to the Plan, please contact Amy Densmore, Director of Charter Accountability, at (989) 506-0355 or via email at avanatten@thecenterforcharters.org to initiate that process. Thank you for all your efforts to keep student learning moving forward in these trying times. If you have any further questions or need additional support, please do not hesitate to contact us.

Sincerely,

A handwritten signature in black ink that reads "Corey Northrop". The signature is written in a cursive, flowing style.

Corey Northrop
Executive Director

Approved COVID-19 Preparedness and Response Plan

RESOLUTION APPROVING THE COVID-19 PREPAREDNESS AND RESPONSE PLAN (“PREPAREDNESS PLAN”) AND APPROVAL OF CHARTER CONTRACT AMENDMENT

SOUTH ARBOR CHARTER ACADEMY (the “Academy”)

A regular meeting of the Academy Board of Directors was held on the 12th day of August, 2020, at 8:30 a.m.

The meeting was called to order at 8:33 [a.m.] p.m.] by Board Member Marcella Haghgoie :

Present: Marcella Haghgoie, Sarah Camp, JaVonda Palmer

Absent: Stacy Peterson, John Morrison

The following preamble and resolution were offered by Board Member Sarah Camp and supported by Board Member JaVonda Palmer :

BACKGROUND

On June 30, 2020, in response to the novel coronavirus (COVID-19) pandemic affecting our state, Governor Gretchen Whitmer issued Executive Order 2020-142 (the “Order”) that, provides a structure to support all schools in Michigan as they plan for a return of preK-12 education in the fall. Under the order, all schools must adopt a COVID-19 Preparedness and Response Plan (“Preparedness Plan”) laying out how they will cope with the disease across the various phases of the Michigan Safe Start Plan. Under the Order and the Michigan Safe Schools: Michigan’s 2020-2021 Return to School Roadmap developed by the COVID-19 Task Force on Education Return to School Advisory Council (“Return to School Roadmap”), Schools retain flexibility to tailor their instruction to their particular needs and to the disease conditions present in their regions.

Acting under the Michigan Constitution of 1963 and Michigan law, the Order and the Return to School Roadmap state:

1. Coronavirus relief funds under the Coronavirus Aid, Relief, and Economic Security Act will be provided and may be used to aid in developing, adopting, and following a COVID-19 Preparedness Plan under section 2 of the Order.
2. Every school must develop and adopt a Preparedness Plan that is informed by the Return to School Roadmap.
3. By August 15, 2020 or seven days before the start of the school year for students, whichever comes first: the Academy Board must approve its Preparedness Plan.
4. By August 17, 2020, the Academy’s authorizing body, Central Michigan University, must collect the Preparedness Plan and transmit such plan to the Superintendent and to the State Treasurer.
5. By August 17, 2020, the Academy must prominently post its approved Preparedness Plan on the Academy’s website home page.

The Academy submitted its Preparedness Plan to Central Michigan University (“Authorizer”) for review and approval.

The Academy Board of Directors (“Academy Board”) is required to approve the Academy’s Preparedness Plan by August 15, 2020 or seven days before the start of the school year for students, whichever comes first, and is required to approve the Academy’s Preparedness Plan as a charter contract (“Contract”) amendment.

THE ACADEMY BOARD THEREFORE RESOLVES THAT:

1. The actions taken by Academy representatives to prepare and submit the Academy’s Preparedness Plan to Authorizer are ratified.
2. The Preparedness Plan, as approved by the Authorizer, is approved by the Academy Board as the COVID-19 Preparedness Plan and as the COVID-19 Preparedness Plan Amendment to the Contract. This Contract Amendment shall remain in effect as long as The Preparedness Plan remains in effect. The Board President is authorized to sign and submit the Contract amendment to the Authorizer for approval.
3. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.
4. The Academy will deliver from time to time such information regarding the implementation of the Academy’s Preparedness Plan as the Authorizer or Michigan Department of Education may reasonably request.
5. Any Board policies or provision of Board policies that prohibit or impede the Academy’s compliance with The Preparedness Plan or Executive Order 2020-142 are temporarily waived, suspended or altered.
6. Any actions or actions taken by authorized Academy representatives in the development, submission and implementation of The Preparedness Plan are (to the extent such actions or actions are not inconsistent with the delegation of authority provided under this resolution) ratified and confirmed in all respects.
7. This Resolution shall take immediate effect and continue through the end of the state of emergency and disaster declared in Executive Order 2020-127 and any subsequent executive order declaring a state of emergency or disaster in response to COVID-19 or the end of the 2020-2021 school year, whichever is sooner.

Ayes: 3

Nays: 0

Resolution declared adopted.

Print Name: Sarah Camp

Secretary, Academy Board

Assurances

- The Academy will cooperate with local public health authorities if a confirmed case of COVID-19 is identified and, in particular will collect the contact information for any close contacts of the affected individual from two days before he or she shows symptoms to the time when he or she was last present at the Academy.
- The Academy acknowledges that it is subject to the rules governing workplace safety established in section 1 of Executive Order 2020-114 or any successor order, and has adopted a Workplace Preparedness Plan. A copy of this plan is attached.
- The Academy will be or is closed to in-person instruction when the region in which it is located in is in Michigan Safe Start Plan Phases 1-3.
- The Academy's sponsored inter-school, after school activities and athletics will be suspended when the region in which it is located in is in Michigan Safe Start Plan Phases 1-3.
- The Academy will comply with guidance from the United States Department of Education, including its Office of Civil Rights and office of Special Education and Rehabilitative Services, and the Michigan Department of Education concerning the delivery of alternative modes of instruction to students with disabilities in light of the impact of COVID-19.
- The Academy will provide for the continued pay of school employees while redeploying staff to provide meaningful work in the context of the Preparedness Plan, subject to any applicable requirements of a collective bargaining agreement if applicable.
- The Academy prohibits indoor assemblies that bring together students from more than one classroom during Michigan Safe Start Plan Phase 4.

President of the Board of Directors

8/12/2020

Date

Introduction and Overview

South Arbor Charter Academy, located in Ypsilanti, opened in the fall of 1999 as a Michigan Public Charter School, and is managed by National Heritage Academies (NHA). Our school serves grades Y5-8 and had 799 students during the 2019-20 school year. South Arbor's mission is challenging each child to achieve: Academic Proficiency, Moral Integrity, Personal Responsibility. We believe children with a strong moral character and excellent college preparation will excel in any path they choose. We achieve this through our program built on the pillars of moral focus, academic excellence, personal responsibility, and parental partnerships. These values continue to guide our efforts as we work to ensure that our students continue to receive a quality education regardless of the learning environment(s) we may find ourselves in over the course of the 2020-21 school year due to COVID-19.

In Spring 2020, when Governor Gretchen Whitmer first announced a state-wide closure from March 16 through April 5, the implementation of our remote learning plan began immediately. In the initial days of this transition, we focused on helping students, families, and staff adjust mentally and physically to a new learning model. Teachers and other staff connected with students via telephone and email to provide learning options using printed materials the students had brought home. Schoolwork was based on reading material and lessons that had recently been completed, using reinforcements and extensions. We continued to improve our remote programming, rolling out Remote Learning 2.0 in early April. Remote Learning Packets were created and mailed to all students with an amended scope and sequence and we used Google Classroom to connect with students and complete assignments virtually.

At the close of the 2019-20 school year, the school elicited feedback from parents throughout the period of remote learning. This was sent to teachers and compiled by the administrative team in order to address current areas of need in addition to plan for future remote learning periods. Additionally, parent-led groups were also utilized to elicit feedback regarding remote learning and areas of need from within the parent body. This feedback was used to improve and inform continued remote instruction programming.

As fall approaches, South Arbor Charter Academy, in partnership with NHA, is preparing for four possible learning environments that may be necessary throughout the 2020-2021 school year. We have created detailed plans around each learning scenario which include:

- In-person: a return to traditional classroom environment
- Remote: teaching and learning done completely at home
- Hybrid: a combination of in-person and remote instruction
- Virtual: teaching and learning in a fully online environment

Each of these options are aligned with the MI Safe Schools Return to School Roadmap, which outlines required and recommended safety protocols for the 2020-21 school year based on the status of coronavirus in our community. The wellbeing of our students and staff remains our number one priority. We have developed the following plan to ensure safety, quality education, and a seamless transition throughout any changes to our learning environment.

Plan for Operating during Phases 1, 2 or 3 of the Michigan Safe Start Plan

Phase 1, 2, or 3 Safety Protocols

Under Phase 1, 2, or 3 of the Michigan Safe Start Plan, the school will be closed and no in-person instruction will be allowed. Our school will operate 100% in a remote instruction learning environment. All after-school and extra-curricular activities are suspended under these phases. The building will be closed, deep cleaned/sanitized and then maintained with routine janitorial services as needed based on building usage. The school will still be accessible by school employees and contractors as necessary for basic school operations. Social distancing and mask use will be required while present in the building. In addition, any staff entering the building will need to complete a health screening.

In the event that our ISD asks to use our school building for a disaster-relief child-care center, we will connect with the school's management partner, National Heritage Academies, to cooperate in providing our building for such use and such length of time as is needed.

Food Service

This spring when the school closed due to the COVID-19 pandemic, the school recognized that some students would face hunger issues without the breakfast and lunch the school provided. With this reality in mind, NHA decided early on in this process to do everything it could to continue providing these meals to students who require them. Necessary state approvals to continue providing meals were secured and plans/schedules were developed describing how our food service vendor would provide these meals. If a return to Phase 1, 2, or 3 occurs, or a return to remote learning is necessary at any time, the school will again ensure that meals will continue to be provided to families in need via our vendor, Preferred Meals, when necessary and/or provide information about available local resources. The school will ensure that any food distribution done at the school is done safely and meets local and state guidelines.

Transportation

When in Phase 1-3, all busing operations are suspended.

Phase 1, 2, or 3 Mental & Social-Emotional Health

Trauma occurs when there is an overwhelming event or events that render a person helpless, powerless, or creates a threat of harm or loss to that person, or to someone critically important to the person. Traumatic experiences like COVID-19 can impact learning, behavior, and relationships at school. Research clearly indicates that a traumatic experience in childhood can diminish concentration, memory, and the development of language that children need to be successful at school. The COVID-19 pandemic is affecting not just our children's physical health and academic experience, but it is taking a deep emotional toll as well. We believe children's well-being comes first, and that young people like adults, learn best when they are happy, safe, calm, and cared for properly.

As educators, we need to do everything in our arsenal to reduce the effects of trauma so that students can learn at an optimal level. Trauma does not discriminate between urban and suburban students as people will perceive threats like COVID-19 in their own way. It is imperative that our organization continues to nurture the hearts and minds of our children and staff and show a thoughtful, innovative response from schools and networks as we strive to support students' mental health.

We will continue to provide families with the support they need for a successful remote learning experience. We have worked and will continue to work to provide parent resources such as "How to Help Your Child Understand COVID-19", "Help your Child Cope with Stress and Anxiety", "Activities for Children and Families to Maintain Normalcy in Schedule", and "The Grief Experience through COVID-19". We have also provided parents with additional resources such as healthychildren.org and SAMHSA Disaster Distress Helpline. When applicable, information is provided to families via the school's SchoolMessenger system which sends an email and text to every family. Information will also be provided in the Parent Portal, school newsletters, email updates, social media sites, and the school's website as necessary.

The school will establish and communicate to all staff guidelines for the identification and rapid referral of at-risk students to appropriate building-level support teams. There is an established Intervention Assistance Team process in place to address the social/emotional and academic needs of students. Additionally, regular one-on-one meetings between teachers and their managers allow for processing concerns related to students and the need for more immediate intervention. This will continue in a remote learning environment.

If students are not participating in remote learning and teachers are unable to connect with them, the teacher will share the information with their Dean. When necessary, the Dean will bring the name to the Principal, which will trigger a response from the social and emotional support team, who will continue attempts through a variety of communication methods.

Professional development for staff regarding social-emotional learning & trauma-informed best practices was delivered at the 2020 NHA Leadership Summit over the summer. Throughout the year, ongoing support will be offered through newsletters with specific activities that can be conducted with both staff and students to address their social and emotional needs. Monthly town hall meetings will also be conducted to establish a community for sharing best practices and resources to address the social and emotional needs of staff and students.

Our school social worker has been designated as our mental health liaison and in association with our Dean of Intervention will work across the school, local public health agencies, and community partners. This liaison will centralize mental health referrals, communications to families/students, and public-facing wellness materials. The principal is the contact with the health department. School and community wellness resources are shared by our Wellness Committee. We have a few staff members that share out during the year, who will compile and regularly update comprehensive lists of wellness resources available to students that can be provided in conjunction with screening activities. These are typically provided through newsletters or our school's social media.

The school is also concerned with the mental & social-emotional health of our staff. Leaders consistently hold one-on-one meetings with staff that will allow for evaluating physical and mental health status. We also have an

ethics hotline where employees can report concerns. Additionally, we provide, free of charge, access to an employee assistance program where staff can access a library of resources for self-care as well as are provided with complimentary counseling sessions.

At this time the school is not implementing a mental health screening for all students by a trained professional. We will conduct additional research into an appropriate assessment tool that can be used. Additionally, it will be necessary for school staff to be properly trained to ensure appropriate implementation and next steps.

Phase 1, 2, or 3 Instruction

Governance

NHA leaders have been addressing the unfolding situation using a comprehensive pandemic plan created several years ago as part of our broader emergency plan. This proprietary pandemic plan focuses on three priorities that directly reflect the U.S. government's published Pandemic Response Phases: *preparation*, *response*, and *recovery*. In each of these three phases, NHA's plan maintains an overarching focus on safety while pursuing five more specific goals:

- 1) Limit illness, the spread of illness, and emotional trauma.
- 2) Preserve continuity of essential functions.
- 3) Minimize social and educational disruption.
- 4) Minimize instructional loss.
- 5) Maintain appropriate communications with government health departments and the U.S. Centers for Disease Control & Prevention (CDC).

Under this plan, a cross-functional team of about a dozen NHA leaders and professionals oversees management of NHA's response to the pandemic. This team has three areas of focus:

- ❖ Planning and development in key areas such as safety and health, school quality, health care, people services, facilities, and strategic communications.
- ❖ Managing immediate needs in any outbreak, addressing not only priority areas mentioned above but also food service, purchasing, and the Service Center's one-stop business support for schools.
- ❖ Facilitating NHA's eventual return to normal operations.

We began reviewing and implementing this plan in February as global concerns about the COVID-19 virus were growing. In March, by the time schools were closing, NHA had begun a comprehensive, systematic response led by our CEO, Brian Britton.

For example, at multiple meetings that were being conducted seven days a week in late March, NHA leaders and professionals were sharing information, discussing challenges, and refining strategies and tactics. Functions represented in these meetings typically include safety and health, school quality, health care, people services, facilities, strategic communications, food service, purchasing, and the Service Center's one-stop business support

for schools. All of these efforts focus on action: developing and implementing specific steps to ease the impact of the crisis.

The school, in partnership with NHA, began immediately implementing a remote learning program intended to offer all families and students robust, rigorous, and standards-based content in a format that was simple and easy to implement remotely. This remote learning plan was shared with all involved stakeholders. Together, NHA and the school continued to work to improve this programming throughout the spring school closure.

At the close of the 2019-20 school year, the school elicited feedback from parents throughout the period of remote learning. This feedback was used to improve and inform future remote instruction programming and was also used by the NHA cross-functional pandemic team to inform decisions for the upcoming school year.

As we embark on an uncertain new school year, the school will remain flexible and adapt as needed to the changing needs of its students, staff, and community. Feedback will continually be gathered to help improve efforts to ensure all needs are addressed.

Remote Instruction

After much research and new learning, the Academy in Partnership with NHA has prioritized five key components for remote learning:

- 1) Ensuring Regular Teacher/Student Connections
 - The school recognizes, that even in a remote setting, teachers play the most important role in growing our students.
- 2) Provide Opportunities for Student Discourse
 - We know that students learn more when they are the ones doing the thinking and speaking.
- 3) Allow for Flexibility in Scheduling
 - Every region and school may need to operate slightly differently.
 - Schools may need to adjust plans as needs change in their community.
- 4) Encourage Engagement and Participation
 - Students learn best when actively engaged.
 - The types of learning opportunities we provide and the technology tools that we choose help ensure active engagement and participation.
- 5) Utilizing Rigorous Instructional Materials
 - NHA has spent three years rolling out high quality resources that others have vetted and shared are the best resources we can be using. These resources will continue to be utilized even in a remote learning setting.

As we work to transition our instructional vision to a remote model and develop a plan for remote learning, we prioritize three learning types for our students.

- Synchronous Small Groups
 - By prioritizing small group instruction, we can ensure that teachers and students are able to connect regularly. We are allowing opportunities for student discourse, engagement, and participation. Our same high-quality resources are being utilized within our synchronous small groups.

- Scheduling
 - Math Small Groups will meet two times per week (e.g., on Mondays and Wednesdays)
 - ELA Small Groups will meet two times per week (e.g., on Tuesdays and Thursdays)
 - Science & Science Studies Groups will vary by week
- Asynchronous Learning
 - Pre-recorded Lessons
 - Independent Practices
- Office Hours
 - Office hours are another opportunity for teacher-student connections. Teachers can provide feedback, offer assistance or support with an assignment, and/or address remediation/extension opportunities.
 - Office hours also provide an opportunity for a parent touchpoint.

Below is an example of what a weekly schedule would look like in this environment.

Sample Teacher Week at a Glance					
3 rd Grade ELA: Unit 1 Week 1					
	Day 1	Day 2	Day 3	Day 4	Day 5
Synchronous Small Group		Shared Reading: Unit 1 Day 2 "MVP" by Clare Mischica		Shared Reading: Unit 1 Day 3 "A Sudden Slice of Summer"	ELA Small Group Intervention
Read Aloud [Video]	Unit 1 Day 1 <i>Thunder Cake</i> by Patricia Polacco	Unit 1 Day 2 <i>An A from Miss Keller</i> by Patricia Polacco	Unit 1 Day 4 <i>An A from Miss Keller</i> by Patricia Polacco		
Shared Reading	Unit 1 Day 1 "MVP" by Clare Mischica		Unit 1 Day 3 "A Sudden Slice of Summer"		Weekly Quiz: Unit 1 Week 1
Independent Reading	Recommendation: Read for 15 minutes daily and complete Reading Log				
Writing	Persuasive Essay: Persuade your parents to let you travel to another country.				
Digital Tool	Recommendation: 30-60 minutes a week				
Office Hours	Recommendation: 2 hours per week				

For all content areas, including Moral Focus, the school has examples to instruct teachers on how to translate in-person learning to the remote format. For Math and ELA, a weekly schedule like the above will be provided for every week of the year. That way should the school go remote in the middle of a unit, teachers will be able to find the plan for where they left off in-person and be able to pick right up in a remote environment.

If the school ends up needing to start the year remotely, students will still be assessed to understand where they are academically and to inform instructional decisions for teachers, students, and families.

Students with IEPs or 504s will access the same learning opportunities that are offered to general education students. These learning activities and supports will address student needs identified within any IEP/504, to the extent appropriate. To accomplish this, special education providers will collaborate with general education teachers to ensure provision of accommodations and modifications (when appropriate) that allow students to access learning opportunities. Individualized accommodations have been documented for each student and have been shared with classroom teachers. A grade level specific list of accommodations has been created for teachers to share with families.

EL teachers are working with classroom teachers to provide necessary scaffolds to schoolwork to ensure EL students are able to access the core content. Interventionists will take direction from their leadership team on how to best collaborate and support general education teachers so that all instructional professionals are able to support each student and family as needed.

Deans will oversee their grade bands and will meet regularly with teachers to conduct checkpoints around curriculum and instruction, monitoring student progress, and identifying students in need of additional support.

The school will develop a continuation of services plan for any students needing occupational, physical, and/or speech and language therapy, including evaluations by school psychologists and social workers. A FAPE will be delivered to all students that have an IEP or Section 504 plan. Careful consideration will be given as to the best way to deliver these services in a socially distant and safe way.

Communications & Family Supports

The school will ensure that it is effectively and efficiently communicating with its families, ensuring that every family is aware of the expectations for students. Information is provided to families via the school's SchoolMessenger system which sends an email and text to every family. Information will also be provided in school newsletters, back to school information, social media sites, and the school's website as appropriate. The school will ensure parents are provided with resources, strategies, and training to support their students' learning. All official school communication is translated into students' home languages as needed.

Professional Learning

All instructional staff members will have, at minimum, monthly PLC meetings to identify and capitalize on best practices for remote instruction. The school's LTS or technology coordinator will support staff with enhancements for use within Google Classrooms on a monthly (minimum) basis. All staff members have been trained in using Google Meet. PLC meetings will continue either in-person or virtually on a monthly (minimum) basis.

Monitoring

In a remote environment the Academy will monitor the following:

- Connectivity and Access
 - NHA is providing each scholar with a laptop. This removes the barrier of students lacking access

to devices. Additionally, parents that have limited connectivity have been connected with community resources to establish connectivity.

- Attendance
 - Instructors will continue to track student participation. Our online Gradebook system allows for monitoring of participation virtually. Students will be considered present when one (or more) of the following situations takes place:
 - The student “checks in” or attends a Google Classroom event.
 - The student completes and submits a Google Classroom assignment.
 - The student completes and submits a learning packet assignment.
 - The student “checks in” with the teacher via phone if not able to complete work virtually.
- Student Work
 - Teachers are actively giving feedback throughout the day via Google Classroom. The work is submitted in Google Classroom via Google Forms.
 - Interventionists are calling students who are struggling and offering online tutoring sessions.
 - Teachers will provide feedback to students weekly as feedback for students and parents.

Phase 1, 2, or 3 Operations

Facilities

The building will be closed, deep cleaned/sanitized and then maintained with routine janitorial services as needed based on building usage. Janitorial staff will wear the required PPE as necessary. The school will still be accessible by school employees and contractors as necessary for basic school operations. Social distancing and mask use will be required while present in the building. In addition, any staff entering the building will need to complete a health screening.

The school does not coordinate with Local Emergency Management Programs (LEMP) to procure its cleaning and disinfection supplies as this is provided by our janitorial services partner, Aramark.

Technology

A family survey regarding reliable and effective Internet and device access was completed prior to the beginning of the 2020-21 school year. During the 2020-21 school year, NHA will be providing each student with a laptop. It is our hope that this helps eliminate barriers such as lack of devices. Students will utilize Google Classroom to receive & submit assignments, receive feedback, and connect. The school will review and update its data privacy and technology policies as necessary.

Our LTS will be the school’s technology support lead. Families will have the contact telephone number and email for the LTS. Additionally, NHA will support each individual school with a 1-800 hotline number for additional technology support. To safely manage device repairs/replacements during period of remote instructions, each LTS has received training on the safe handling of returned materials, has cleaning/disinfection supplies provided by NHA/Aramark, and has procedures to follow for the packaging of devices for replacement.

Budget, Food Service, Enrollment, and Staffing

If a return to Phase 1, 2, or 3 occurs, or a return to remote learning is necessary at any time, the school will again ensure that meals will continue to families in need via our vendor, Preferred Meals, when necessary and/or provide information about available local resources. The school will ensure that any food distribution done at the school is done safely and meets local and state guidelines.

Based on instructional programming, the school will provide instructional resources and materials to staff and students as feasible.

The school will utilize online platforms to continue to recruit, interview, and hire as necessary.

Our online Gradebook system allows for monitoring of participation virtually. Students will be considered present when one (or more) of the following situations takes place:

- The student “checks in” or attends a Google Classroom event.
- The student completes and submits a Google Classroom assignment.
- The student completes and submits a learning packet assignment.
- The student “checks in” with the teacher via phone if not able to complete work virtually.

The table below shows suggested time-on-task for various academic subjects by day. Please note that these times are flexible and may be adjusted, as needed. Teachers will continue to reinforce this flexibility during their weekly communication with families.

Content Area	Time-On-Task
ELA	75 minutes
Math	60 minutes
Science/SS	30-90 minutes
Moral Focus	15 minutes
Specials	30 minutes

During times of remote instruction, all instructional staff will provide daily activities/assignments. Teachers will develop Google Meetings to support student understanding and mastery of the daily lessons and will maintain “office hours” multiple times throughout the week in addition to the Google Meeting times. The Google Meetings can be one-on-one with students, with a small group, or the whole class as needed. It is the expectation that the teacher provides materials for each student daily, but may not have daily direct interaction.

Plan for Operating during Phase 4 of the Michigan Safe Start Plan

Phase 4 Safety Protocols

Under Phase 4 of the Michigan Safe Start Plan our school will operate either in a remote, hybrid or in-person instruction learning environment with strict health and safety guidelines. A hybrid learning environment will be used if partial-closure of campus is deemed necessary due to communicable disease outbreaks, health department or Governor executive orders, or administrative decision based on safety and health interests of our students, staff, and community. While not required in Phase 4, remote learning may be necessary due to local conditions.

Personal Protective Equipment

The school will follow state and local guidelines for mask/face covering use. Masks/face coverings can be homemade or disposable level-one surgical masks. Under Phase 4, masks will need to be worn by students in grades 6-8 throughout the day unless an underlying health condition or sensory issue exempts them. K-5 students will remain with their homeroom students as much as possible. K-5 students will be strongly encouraged to wear a mask daily. If there are students that are unable to obtain a mask, additional masks will be made available in the school's main office as needed. Masks will need to be worn by all students whenever they are outside of their classroom for reasons such as transitioning and arrival/dismissal, and when social distancing is not able to be maintained.

Masks/face coverings will also be mandatory for staff unless they are approved to not wear them. This determination will be made on a case-by-case basis in partnership with NHA's HR department. If a staff member refuses to comply with the mask requirement, we will use our standard disciplinary process for policy violations. This may include coaching, conversations, verbal warnings, written warnings, final written warning, and termination. In situations where a student is refusing to wear a mask, we will begin with education on the importance of wearing a mask in keeping our school community safe. In the event there is continued non-compliance with wearing a mask, the school will reach out to the parent/guardian for support.

200 reusable masks have been provided to the school for staff use. Students that are in need of a mask will be provided one through the school's main office, as needed. Staff and students will be required to wash cloth facial coverings or dispose of disposable masks daily. We will revisit the need to require staff and students to wear masks based on CDC, state, and local health department guidelines.

Hygiene & Cleaning

Several significant changes are being made with our janitorial service partner, Aramark, such as increasing manpower, changes in management structure, improved training, greater accountability, and monthly audits. In addition to our baseline janitorial services, Aramark is also providing additional cleaning services due to COVID-19. These include:

- Increased frequency of high touch point disinfection

- All high touch point locations such as light switches, door handles, bathroom faucet handles, etc. will be disinfected three times a day (mid-morning, mid-afternoon, and evening)
- All cleaning materials are EPA approved for use against COVID-19.
- Playground structures will continue to be cleaned as necessary with EPA approved disinfectant.
- Supplying the school with necessary materials
 - Aramark is ensuring that each classroom within the school has hand sanitizer, a spray bottle of Virex Disinfectant Cleaner, paper towel, and instructions on how to properly use the provided materials for times when additional cleaning/disinfecting may be needed in individual classrooms. Staff must wear gloves, surgical mask, and face shields when performing all cleaning activities.
 - Aramark is also ensuring that plenty of hand soap is in stock at the school to stay ahead of any shortage. Soap, hand sanitizer, and Virex will be refilled as necessary.
- Retraining of existing janitorial staff
 - All janitorial staff are being retrained on cleaning and disinfecting specifically for COVID-19.
- Facilities Preparedness and Response Plan
 - An action plan has been created for employment if there is a suspected or confirmed case of COVID-19 in the school building. This plan includes thorough disinfection and cleaning, which may require a temporary closure of the school building.
- Safe and correct storage of cleaning and disinfection products

In addition to the added efforts of our janitorial services, we are all joining in the effort to promote safe hygiene habits. Handwashing posters instructing and reinforcing proper handwashing techniques will be placed in bathrooms.

Handwashing breaks for students and staff will be scheduled every 2-3 hours. Effective handwashing techniques will be taught and reinforced by school staff at the start of the year and throughout the year, including washing with soap and water for at least 20 seconds and the safe use of hand sanitizer. Our school will have a hand sanitizing station in each classroom and the office. We will also have one near the main entrance.

Social distancing reminder signs and one-way traffic floor markings (where possible) will be placed throughout the school building. Social distancing floor/seating markings will be established in waiting/reception areas.

When possible, teachers will rotate in and out of classrooms rather than having students transition. This should help eliminate the need to have student desks be wiped down after every class period. However, if student movement does take place, the teacher will be responsible for ensuring that every desk has been disinfected before a new group of students enters the classroom. Whenever possible, Specials teachers will rotate in and out of the classrooms as well. However, when necessary to use their own classroom/space, all hands-on classrooms will be disinfected between student groups. Students should not be sharing personal materials such as pens, pencils, etc. Each classroom will have materials to disinfect commonly shared items such as computers and curricular tools.

Young Fives through Fifth Grade students will keep their personal belongings separate and in individually labeled cubbies, desks, and/or backpacks.

Grades 6-8 students will be provided with individual lockers. Lockers will be assigned alternating by grade level so that a 6th grader has a locker in between 7th and 8th grade students. Classroom transitions will happen by grade level, thus allowing for only one student every three lockers during transition time. This should help maintain recommended social distancing guidelines.

Spacing, Movement, and Access

Under Phase 4, the movement of students will be limited as much as possible. K-5 students will remain with their homeroom cohort as much as possible. Specials will take place inside classrooms whenever possible. Middle school students will utilize staggered rotations when transitions are necessary. No more than two grade levels will use the playground for recess at a time. Restroom breaks will be limited to one classroom at a time. Large gatherings such as assemblies are prohibited in Phase 4.

Handwashing posters instructing and reinforcing proper handwashing techniques will be placed in every bathroom. Social distancing reminder signs and one-way traffic floor markings (when applicable) will be placed throughout the school building.

In addition, teachers will maintain six feet of spacing between themselves and students as much as possible. The school will limit additional people entering our building as much as possible. Family members of students will be asked to not enter the building unless absolutely necessary. Visitors will be by appointment only and at the discretion of the front office and principal. Any necessary guests will be screened for symptoms, be required to wear a mask, and sanitize their hands upon entrance. A log will be kept of all visitors entering and exiting the building.

The school will, when feasible, space desks six feet apart in classrooms. When six is not possible, the desks will be spaced as close as possible to six feet apart. In the few classrooms where large tables are in use, students will be seated at opposite ends of the table. Tables will be spread as far apart as possible to allow appropriate spacing.

If necessary to meet social distancing guidelines and based on the local containment of the virus and school leadership discretion, the school is prepared to operate in a hybrid model/staggered schedule. More information about this learning environment option is available under the [Phase 4: Instruction](#) section.

Screening Students and Staff

The school will cooperate with the local public health department regarding the implementation of screening and testing of students and staff. When and where necessary, we are prepared to do a temperature scan of students as they arrive at the building. This will be conducted by trained staff who have appropriate PPE including gloves, disposable face masks, and face shields. Temperatures will be taken outside before students enter the building. Our school will have a multiple entrance arrival. We will be using four different entry points into the building each morning.

Our school has identified a specific isolation location for students who are sick or run a fever of 100.4 or greater until they can be picked up. When in use, the student and staff member supervising will be required to wear masks.

Staff members are required to complete daily wellness checks before arriving at work to ensure they do not exhibit COVID-19 symptoms (fever, cough, shortness of breath, or difficulty breathing). To assist with this a daily health-screening app was created by our management partner, National Heritage Academies. Staff members can use their mobile device to scan a QR code and complete the required screening survey.

Staff and students with suspected or confirmed cases of COVID-19 can return to school when they have received a negative COVID-19 test, it's been 10 days since the individual first had symptoms, or it has been at least three days since the individual had a fever or symptoms have improved (when they have been released from isolation per the CDC guidelines).

Testing Protocols for Students and Staff and Responding to Positive Cases

We will monitor and follow local health department and state recommendations. If an employee or student is showing COVID-19 symptoms, they will be sent directly home, or to an identified isolation room until they can be safely picked up. When the isolation room is in use, the student and staff member supervising will be required to wear masks.

The school leadership will notify our NHA People Services Business Partner who will help determine appropriate action based on the situation. This includes communicating to the NHA Facilities team to ensure proper cleaning is done, partnering with the NHA Communications Team to ensure the proper stakeholders are notified in a timely manner, while also ensuring compliance with employee and student confidentiality and HIPAA requirements, and notifying and cooperating with the local health department.

Responding to Positive Tests Among Staff and Students

If there is a confirmed case in which reporting is necessary, the People Services Business Partner for the school will report the case to the local department of health. The People Services Business Partner will communicate to the NHA Facilities team to ensure proper cleaning is done and will also partner with the communications team to ensure the proper stakeholders are notified in a timely manner, while also ensuring compliance with employee and student confidentiality and HIPAA requirements. Staff and students with suspected or confirmed cases of COVID-19 can return to school when they have received a negative COVID-19 test, it's been 10 days since the individual first had symptoms, or it has been at least three days since the individual had a fever or symptoms have improved (when they have been released from isolation per the CDC guidelines).

Upon cases of suspected or confirmed COVID-19 cases in the building, the Facilities Preparedness and Response Plan calls for a move into a Level 3 Response Procedure. Within 0-24 hours of the last known presence of a suspected/confirmed case in the facility all known areas accessed by the case will be closed and vacated. Partial or full building closure will be done as deemed necessary by the school leadership and their DSQ. Aramark personnel will prepare for full disinfection cleaning after 24 hours has passed. Aramark personnel will utilize

enhanced PPE (gloves, face masks, gowns) during their disinfection cleaning. Re-entry will not be permitted until disinfection cleaning will be complete. The duration of disinfection cleaning will depend on the extent of areas visited in the facility by the suspected/confirmed case.

Food Service

Our students will eat lunch in the classroom. While in hybrid, we may implement a weekly rotation for one grade-level to eat lunch in the gym to allow more socialization. Our tables are 12 feet long, so it would allow enough space for students to eat while also being able to talk casually with peers. Sneeze carts are being added to food carts for food delivery. Cutlery, seasonings, and sauces are being directly placed on disposable trays. Our lunch vendor is also receiving additional training on health, safety, and sanitation practices.

Athletics & Extra-curriculars

Indoor assemblies that bring together more than one classroom will be prohibited. Small group programming will be allowable, but safety precautions must be taken to ensure students and staff are safe. Programming can take place where social distancing is possible. Students and staff will be expected to wear face coverings when physical distancing is not possible. Students, teachers, and staff must use proper hand hygiene techniques before and after every practice, event, or other gathering. Any equipment must be disinfected before and after every use. School leaders will communicate with families the status of after school clubs and extracurricular activities to parents in a timely fashion. The school will follow as necessary all local and state guidelines, including the Michigan High School Athletic Association guidance.

The school will follow all required guidelines from the state when applicable including:

- ❖ Inter-school competitions may be held provided that, facial coverings are worn if school transportation is provided. Buses must be cleaned and disinfected before and after every use, as detailed in the subsequent "Busing and Student Transportation" section.
- ❖ Spectators are allowed provided that facial coverings are used by observers and six feet of social distancing can be maintained at all times. Attention must be given to entry and exit points to prevent crowding.
- ❖ Each participant must use a clearly marked water bottle for individual use. There should be no sharing of this equipment.
- ❖ Handshakes, fist bumps, and other unnecessary contact must not occur.
- ❖ Indoor weight rooms and physical conditioning activities that require shared equipment are suspended. Outdoor physical conditioning activities are allowed while maintaining social distancing.
- ❖ Large scale indoor spectator events are suspended. Large scale outdoor spectator or stadium events are limited to 100 people, and people not part of the same household must maintain six feet of distance from one another.

Transportation

Our school does not provide busing transportation to and from school. Under Phase 4 field trip busing is suspended. If student transportation becomes necessary, the school will follow all state and local requirements.

Medically Vulnerable Students & Staff

All current plans for accommodating students with special healthcare needs (e.g. Individual Healthcare Plans, Individualized Education Programs, Individualized Family Service Plans, or 504 plans) will be reviewed and updated as necessary to decrease their risk for exposure to COVID-19.

Staff who self-identify as high risk will be directed to the People Services department. The People Services department will review possible alternative work opportunities depending on the structure of the school. If an alternative work assignment is not feasible, staff will be offered a leave of absence. The school is exploring the possibility of a completely virtual learning opportunity. Such an opportunity may be able to be utilized for students who self-identify as high risk.

Phase 4 Mental & Social-Emotional Health

Trauma occurs when there is an overwhelming event or events that render a person helpless, powerless, or creates a threat of harm or loss to that person, or to someone critically important to the person. Traumatic experiences like COVID-19 can impact learning, behavior, and relationships at school. Research clearly indicates that a traumatic experience in childhood can diminish concentration, memory, and the development of language that children need to be successful at school. The COVID-19 pandemic is affecting not just our children's physical health and academic experience, but it is taking a deep emotional toll as well. We believe children's well-being comes first, and that young people like adults, learn best when they are happy, safe, calm, and cared for properly

As educators, we need to do everything in our arsenal to reduce the effects of trauma so that students can learn at an optimal level. Trauma does not discriminate between urban and suburban students as people will perceive threats like COVID-19 in their own way. It is imperative that our organization continues to nurture the hearts and minds of our children and staff and show a thoughtful, innovative response from schools and networks as we strive to support students' mental health.

One of the biggest things we can do is partner with our parents in this return to school transition to destigmatize COVID-19, understand normal behavioral responses to crises, share best practices of taking through trauma with children, and provide self-care opportunities. We have worked and will continue to work to provide parent resources such as "How to Help Your Child Understand COVID-19", "Help your Child Cope with Stress and Anxiety", "Activities for Children and Families to Maintain Normalcy in Schedule", and "The Grief Experience through COVID-19". We have also provided parents with additional resources such as healthychildren.org and SAMHSA Disaster Distress Helpline.

The school will establish and communicate to all staff guidelines for the identification and rapid referral of at-risk students to appropriate building-level support teams. There is an established Intervention Assistance Team process in place to address the social/emotional and academic needs of students. Additionally, regular one-on-one

meetings between teachers and their managers allow for processing concerns related to students and the need for more immediate intervention. This will all still continue regardless of the learning model.

Professional development for staff regarding social-emotional learning & trauma-informed best practices was delivered at the 2020 NHA Leadership Summit over the summer. Throughout the year ongoing support will be offered through newsletters with specific activities that will be conducted with both staff and students to address their social and emotional needs.

Our school social worker has been designated as our mental health liaison and in association with our Dean of Intervention will work across the school, local public health agencies, and community partners. This liaison will centralize mental health referrals, communications to families/students, and public-facing wellness materials. The principal is the contact with the health department. School and community wellness resources are shared by our Wellness Committee. We have a few staff members that share out during the year, who will compile and regularly update comprehensive lists of wellness resources available to students that can be provided in conjunction with screening activities. These are typically provided through newsletters or our school's social media.

The school is also concerned with the mental & social-emotional health of our staff. Leaders consistently hold one-on-one meetings with staff that will allow for evaluating physical and mental health status. We also have an ethics hotline where employees can report concerns. Additionally, we provide, free of charge, access to an employee assistance program where staff can access a library of resources for self-care as well as are provided with complimentary counseling sessions.

At this time the school is not implementing a mental health screening for all students by a trained professional. We will conduct additional research into an appropriate assessment tool that can be used. Additionally, it will be necessary that school staff are properly trained to ensure appropriate implementation and next steps.

Phase 4 Instruction

Governance

At the close of the 2019-20 school year, the school elicited feedback from parents throughout the period of remote learning. Feedback was gathered by the school in order to address current areas of need in addition to planning for future remote learning periods. This feedback was also used by the NHA cross-functional pandemic team to inform decisions for the upcoming school year.

As we embark on an uncertain new school year, the school will remain flexible and adapt as necessary to the changing needs of its students, staff, and community. Feedback will continually be gathered to help improve efforts to ensure all needs are addressed.

Instruction

The school, in partnership with its management company, National Heritage Academies (NHA), is preparing for four possible learning environments that may be necessary throughout the 2020-2021 school year. We have created detailed plans around each learning scenario which include:

- ❑ In-person: a return to a traditional classroom environment.
- ❑ Remote: teaching and learning completed at home.
- ❑ Hybrid: a combination of in-person and remote instruction.
- ❑ Virtual: teaching and learning in a fully online environment.

It is our commitment that students will receive a quality education regardless of the learning environment(s) we find ourselves in throughout the school year. In anticipation of possible interruptions to in-person instruction, National Heritage Academies is providing a laptop to each scholar. This investment in technology is being made to ensure a seamless transition between models, as necessary.

Traditional In-person Instruction

We believe that the best learning environment for our students includes regular, day-to-day, in-school instruction provided by a teacher. Therefore, our goal is to have a traditional, in-school learning environment for our students as long as this can be accomplished while keeping students and staff safe and healthy. However, local conditions with COVID-19, safety and social distancing requirements, and/or the operational model of local districts may require a shift to a hybrid or a remote learning model.

Remote Learning

While remote learning is not required under Phase 4, factors such as COVID-19 cases present in the school community or surrounding area may require us to step back into a remote learning environment. See [Phase 1-3: Instruction](#) for more detailed information regarding our remote learning model.

Hybrid Environment

While in-person instruction is our strong preference, we recognize that there will likely be times throughout the year when this will not be possible. However, rather than operating under a fully remote model, we may have the opportunity to operate under a combination of remote and in-person environments, with students attending in person some days and participating in remote learning on others.

The decision to move to a hybrid learning environment will be based on several factors, including but not limited to the amount of COVID-19 cases present in the school community, increasing COVID-19 cases in the region/county, the operation and status of the local school district, guidelines from local health departments, and at the discretion of the School Leadership and Director of School Quality.

In a fully remote environment, the school will utilize synchronous small group lessons and asynchronous lessons. Content in both our remote and hybrid plans is the same, it is just the mode of delivery that shifts. In a hybrid environment, the mode of delivery will shift from synchronous small groups to in-person instruction. The hybrid model will also continue to prioritize student engagement, consistency, and differentiation opportunities.

Our teachers will be provided with information about best practices for blended learning, grade-level proficiencies, modes of student assessment and feedback, differentiated support opportunities for students, and guidance around daily instructional time. Teachers will continually monitor and assess students' connectivity and accessibility, attendance, and student work.

Students with IEPs and 504s will access the same learning opportunities that are offered to general education students. These learning activities and supports will address student needs identified within any IEP, to the extent

appropriate. Special education providers will collaborate with general education teachers to ensure the provision of accommodations and modifications (when appropriate) that allow students to access learning opportunities.

While the above reflects our current intentions, we understand the need for great flexibility and adaptability, and we recognize the importance of modifying our plan based on the changing needs of our school community.

Virtual Option

The school is exploring the possibility of a completely virtual learning opportunity for parents who do not feel comfortable or safe returning their students to a traditional or hybrid learning environment due to the nature of the pandemic. It is our goal that providing this option will help us to retain students and families that may fall into this category. More information about this will be made available to our families when it is available.

Regardless of the learning environment the school will follow the below strongly recommended items:

- ✓ Set an instructional vision that ensures that every student will start the year with access to grade-level instruction and high quality, standards-aligned instructional materials in every subject;
- ✓ Ensure every student will be assessed on their understanding of prerequisite skills and grade-level proficiencies using formative assessments, screeners, or diagnostics;
- ✓ Identify students who did not engage in remote learning previously during the spring and develop a plan to provide additional support as necessary;
- ✓ Find ways to integrate high quality digital tools and resources into in-person instruction to ensure a seamless transition should remote or hybrid instruction be needed;
- ✓ Provide opportunities for differentiation, intervention, and remote learning based on the needs of the student;
- ✓ Provide opportunities outside the classroom to support students in need of additional support or intervention;
- ✓ Ensure that every students' academic and social-emotional needs are addressed with the integration of Social and Emotional Learning (SEL) and strengthening connections with students;
- ✓ Support teachers to utilize power standards that identify the major work of the grade in order to focus, prioritize, and accelerate instruction;
- ✓ Review and revise student IEPs, IFSPs, and 504 plans as necessary based on a student's evolving needs, including needs that identified based on time away from provided services when the building was/is closed;
 - IEP teams will work collaboratively to ensure that FAPE is being delivered to each student with an IEP or Section 504 Plan. Data and collaboration with multiple stakeholders will drive necessary supports and accommodations for the student to access FAPE.
 - IEP teams will determine the best way to deliver a FAPE considering a starting point for instruction once school resumes in the fall.
- ✓ Create a plan for professional development that offers restorative supports for teachers and learning around equity and implicit bias, social-emotional learning, and culturally responsive education as needed;
- ✓ Provide professional development for teachers about remote and blended learning tools, best practices, and experiences to ensure they are equitable and engaging; and
- ✓ Deans will conduct checkpoints with teachers on curriculum pacing and ongoing monitoring student progress. Together teachers and deans will review student data to identify overall trends and gaps to guide instruction; and

- ✓ Remain connected with MDE regarding updated policies, guidelines, or requirements.

Not Implementing

The following is a list of the instructional strong recommendations the school is not implementing:

- Secure supports for students who are transitioning to postsecondary

Communications and Support

The Academy will ensure that it is effectively and efficiently communicating with its families, ensuring that every family is aware of expectations for students returning to school, clear information about schedules including any hybrid modified schedules, and the plans for the school in each possible learning environment. Information is provided to families via the school's SchoolMessenger system which sends an email and text to every family. Information will also be provided in school newsletters, back to school information, social media sites, and the school's website as necessary. If the school is required to operate in a remote or hybrid environment, the school will ensure parents are provided the necessary resources, strategies, and training to support their students' learning. All official school communication is translated into students' home languages as needed.

Phase 4 Operations

Facilities

The Academy will follow all state and local guidelines including all strong recommendations included in the Phase 4 Facility plan. NHA has developed a Facilities Preparedness and Response Plan and is working in partnership with Aramark, our janitorial service provider. Aramark staff will be well-equipped with training, guidance, and protocols for supplying, cleaning, sanitizing, and disinfecting the school safely. Face masks will be provided and worn by janitorial staff and all school staff.

Summer deep cleaning, maintenance, and building improvements such as handwashing signs, social distancing reminders, floor markings, etc. are being completed at the buildings and will be done in time for school to open. The number of and size of classrooms and additional spaces available (i.e. gymnasium) have all been analyzed and considered while planning for the upcoming school year. School safety and security practices have also been analyzed, considered, and updated where necessary.

School leadership will be conducting a facility walk-through in partnership with the janitorial services team to ensure that classrooms, common spaces, and the exterior of the building are ready for staff and students.

Not Implementing

The following is a list of the operations strong recommendations the school is not implementing:

- Coordinate with Local Emergency Management Programs for support with procurement of cleaning and disinfection supplies. Advocate for ISDs to coordinate with LEMPS.
 - This is not applicable for our school as our janitorial partner, Aramark handles the procurement of these items for us.

Budget

We are utilizing funds driven from the CARES act to help with costs we incur related to COVID. We also are spending a lot of time engaging with state, ISD officials on clarity around legal and appropriate uses, compliance and reporting requirements, etc.

The school in partnership with NHA will monitor and amend the school's budget as necessary to adjust for potential changes in enrollment, staffing needs, and state funding changes.

Food Service

The school will follow all federal, state, and local guidelines regarding food service. Any changes in policy will be communicated with all necessary staff.

Enrollment

The school is finding creative ways to adapt its traditional summer onboarding and back-to-school events. School Ambassadors and Admissions Reps are assisting schools by pre-packaging information, providing clean pens, hand sanitizer, and masks at events. Some events are going virtual where appropriate. Other events are able to be held in new ways such as outside, a multiple-night event to allow for social distancing, or as a drive-in event. When allowable, tours for new families are being conducted with increased safety measures.

Any enrollment or attendance requirement changes or policy changes will be communicated with all stakeholders timely. Back to school information, including all pertinent information and changes in school policies, will be sent to all relevant stakeholders.

Important school documents will be made available digitally when possible. This is done via the Parent Portal on the school's website. The Parent and Student Handbook is also available on the school's website.

Staffing

School leadership in partnership with NHA's People Services Department will continue to monitor staffing for the upcoming school year and develop a staffing plan that takes in account teachers that may not be returning. Staff who self-identify as high risk will be directed to the People Services department. The People Services department will review possible alternative work depending on the structure of the school. If an alternative work assignment is not feasible, staff will be offered a leave of absence.

The school in partnership with NHA's People Services Department will assess the need for new or additional positions as needed, what additional responsibilities staff will need to take on, redeploy staff as needed, and recruit, interview, and hire school personnel as needed. Available sub personnel will also be monitored and adjusted as necessary. Any new staff will be oriented to current and new school policies as applicable. Master teaching schedules, arrival/dismissal schedules, lunch schedules, and bell schedules will be created with student and staff safety in mind. NHA's Legal Counsel will preemptively address liability questions, related concerns, or vendor issues relative to COVID-19 as necessary.

Technology

A family survey regarding reliable and effective Internet and device access was completed prior to the beginning of the 2020-21 school year. During the 2020-21 school year, NHA will be providing each student with a laptop. It is our hope that this helps eliminate barriers such as lack of devices. Additionally, should the school need to move to a hybrid or remote learning model, each student will already have access to an appropriate device.

Our LTS will be the school's technology support lead. Families will have the contact telephone number and email for the LTS. Additionally, NHA will support each individual school with a 1-800 hotline number for additional technology support. To safely manage device repairs/replacements during period of remote instructions, each LTS has received training on the safe handling of returned materials, has cleaning/disinfection supplies provided by NHA/Aramark, and has procedures to follow for the packaging of devices for replacement.

The school will look for ways to leverage the 1:1 student to device ratio even when in a traditional in-person learning environment. The school's technology plan will be reviewed and improved as appropriate.

Transportation

While our school does not provide daily busing for our students, when any student busing is needed, our school partners with a third party vendor. This vendor will handle the necessary operational COVID-19 implications such as inventorying vehicles, assessing contractors, and finalizing policies and procedures.

Plan for Operating during Phase 5 of the Michigan Safe Start Plan

Phase 5 Safety Protocols

When the state reaches Phase 5, the school will make every effort to resume traditional in-person instruction. However, local health department guidelines, increased community COVID-19 cases, or the presence of COVID-19 cases in the school community may cause the school to transition as necessary into a hybrid or remote environment.

The school will remain flexible and vigilant to ensure the safety of our students. While no longer required, the school will implement recommended safety guidelines from the state and local health departments as is necessary to ensure the health and safety of our students, staff and community. These safety precautions may include:

- ✓ Face coverings/masks will be required for all staff and students 6-8, unless medically unable to wear a mask, whenever not able to social distance. This will be re-evaluated based on the latest CDC, state, and local health department guidance.
- ✓ Face coverings/masks will be recommended for K-5 students, whenever not able to socially distance.
- ✓ Each classroom will be equipped with hand sanitizer, Virex Disinfectant, paper towel, and disinfecting instructions.
- ✓ Staff and students will be reminded and encouraged to practice social distancing, healthy hand hygiene, and mask use. Signage will be posted regarding social distancing, handwashing, and COVID-19 symptoms. One-way traffic markings will be applied as appropriate.
- ✓ Desks will remain spaced as close to six feet apart as possible.
- ✓ Student movement will be limited whenever possible. K-5 students will remain with their homeroom cohort whenever feasible. This may include teachers, including Specials teachers, rotating in and out of classrooms rather than students.
- ✓ Arrival and dismissal practices will be monitored to ensure social distancing and mask use where appropriate.
- ✓ The school will have a designated isolation room for students or staff who feel ill or potentially screen positive on a health screening. Face coverings must be used while in the isolation room.
- ✓ Symptomatic staff or students will be sent home and may not return until they have either tested negative or have recovered according to CDC guidelines.
- ✓ Staff will continue to complete daily health screenings prior to coming to work.
- ✓ The school will cooperate with the local public health department regarding the implementation of screening and testing of students and staff. When and where necessary, we are prepared to do a temperature scan of students as they arrive at the building.
 - This may differ from Phase 4 as health departments may request this less often in Phase 5. However, we will still be prepared to complete these screenings if necessary.
 - Parents will be encouraged to screen their children before sending them to school.
- ✓ Visitors will still be limited from the building as much as feasible. Any necessary guests will be screened for symptoms, be required to wear a mask, and sanitize their hands upon entrance. A log will be kept of all visitors entering and exiting the building.

- Signage will remain on the building limiting entry to the building for anyone experiencing any COVID-19 symptoms.
- In Phase 5, the school may allow more parents or guardians into the building. However, parents should wash or sanitize their hands upon entry and follow all standard visitor protocol.
- ✓ If there is a confirmed case in which reporting is necessary, the People Services Business Partner for the school will report the case to the local department of health. The People Services Business Partner will communicate to the NHA Facilities team to ensure proper cleaning is done and will also partner with the communications team to ensure the proper stakeholders are notified in a timely manner, while also ensuring compliance with employee and student confidentiality and HIPAA requirements.
 - The school will assist the local health department in its efforts to contact trace.
- ✓ Upon cases of suspected or confirmed COVID-19 cases in the building, the Facilities Preparedness and Response Plan calls for a move into a Level 3 Response Procedure. Within 0-24 hours of the last known presence of a suspected/confirmed case in the facility all known areas accessed by the case will be closed and vacated. Partial or full building closure will be done as deemed necessary by the school leadership. Aramark personnel will prepare for full disinfection cleaning after 24 hours has passed. Aramark personnel will utilize enhanced PPE (gloves, face masks, gowns) during their disinfection cleaning. Re-entry will not be permitted until disinfection cleaning will be complete. The duration of disinfection cleaning will depend on the extent of areas visited in the facility by the suspected/confirmed case.
- ✓ Where possible, students will eat lunch in their classroom. When not feasible, students will be socially distanced as much as possible.
- ✓ The school will follow the latest guidelines regarding large gatherings such as assemblies, performances, etc. This may mean the school has more flexibility to hold such events under Phase 5.
- ✓ Athletic equipment will be disinfected before and after use and all participants must use proper hand hygiene before and after practice or games.
 - More spectators are allowed for athletics under Phase 5, however, social distancing will still be required.
- ✓ All high touch point locations such as light switches, door handles, bathroom faucet handles, etc. will continue to be disinfected three times a day (mid-morning, mid-afternoon, and evening)
 - Hands-on rooms such as libraries, computer labels, etc. will be disinfected between each group.
 - All cleaning materials are EPA approved for use against COVID-19.
 - Classrooms will be provided with Virex Disinfectant so teachers can disinfect desks in between classes as necessary.
- ✓ Any busing or student transportation (including field trips) will follow all guidelines from Phase 4 such as hand sanitizer, spacing, etc.
- ✓ All current plans for accommodating students with special healthcare needs (e.g. Individual Healthcare Plans, Individualized Education Programs, Individualized Family Service Plans, or 504 plans) will be reviewed and updated as necessary to decrease their risk for exposure to COVID-19.
- ✓ Staff who self-identify as high risk will be directed to the People Services department. The People Services department will review possible alternative work depending on the structure of the school. If an alternative work assignment is not feasible, staff will be offered a leave of absence. The Academy is exploring the possibility of a completely virtual learning opportunity. Such an opportunity may be able to be utilized for students who self-identify as high risk.

At this time, we do not anticipate many safety protocols to be different from Phase 4. However, we will re-evaluate each safety protocol as necessary and in accordance with the latest CDC, state, and local health department guidance.

Phase 5 Mental & Social-Emotional Health

As educators, we need to do everything in our arsenal to reduce the effects of trauma so that students can learn at an optimal level. Trauma does not discriminate between urban and suburban students as people will perceive threats like COVID-19 in their own way. It is imperative that our organization continues to nurture the hearts and minds of our children and staff and show a thoughtful, innovative response from schools and networks as we strive to support students' mental health.

The school will continue to find ways to support the social, emotional, and mental health of our staff and students as outlined in Phase 1, 2, and 3, and Phase 4. We will continue to look for better ways to meet all of these needs as well be trauma informed.

Phase 5 Instruction

When the state reaches Phase 5, the school will make every effort to resume traditional in-person instruction. However, local health department guidelines, increased community COVID-19 cases, or the presence of COVID-19 cases in the school community may cause the school to transition as necessary into a hybrid or remote environment. The school will be prepared to do so when required.

The school will continue to follow the below MI Safe Schools recommended items:

- ✓ Set an instructional vision that ensures that every student will start the year with access to grade-level instruction and high quality, standards-aligned instructional materials in every subject;
- ✓ Ensure every student will be assessed on their understanding of prerequisite skills and grade-level proficiencies using formative assessments, screeners, or diagnostics;
- ✓ Find ways to integrate high quality digital tools and resources into in-person instruction to ensure a seamless transition should remote or hybrid instruction be needed;
- ✓ Provide opportunities for differentiation, intervention, and remote learning based on the needs of the student;
- ✓ Provide opportunities outside the classroom to support students in need of additional support or intervention;
- ✓ Ensure that every students' academic and social-emotional needs are addressed with the integration of Social and Emotional Learning (SEL) and strengthening connections with students;
- ✓ Support teachers to utilize power standards that identify the major work of the grade in order to focus, prioritize, and accelerate instruction;
- ✓ Review and revise student IEPs, IFSPs, and 504 plans as necessary based on a student's evolving needs, including needs that identified based on time away from provided services when the building was/is closed;

- IEP teams will work collaboratively to ensure that FAPE is being delivered to each student with an IEP or Section 504 Plan. Data and collaboration with multiple stakeholders will drive necessary supports and accommodations for the student to access FAPE.
- IEP teams will determine the best way to deliver a FAPE considering a starting point for instruction once school resumes in the fall.
- ✓ Create a plan for professional development that offers restorative supports for teachers and learning around equity and implicit bias, social-emotional learning, and culturally responsive education as needed;
- ✓ Provide professional development for teachers about remote and blended learning tools, best practices, and experiences to ensure they are equitable and engaging; and
- ✓ Deans will conduct checkpoints with teachers on curriculum pacing and ongoing monitoring student progress. Together teachers and deans will review student data to identify overall trends and gaps to guide instruction; and
- ✓ Remain connected with MDE regarding updated policies, guidelines, or requirements.
- ✓ Effectively and efficiently communicate with its families, ensuring that every family is aware of expectations for students returning to school, clear information about schedules including any hybrid modified schedules, and the plans for the school in each possible learning environment. Information is provided to families via the school's SchoolMessenger system which sends an email and text to every family. Information will also be provided in school newsletters, back to school information, social media sites, and the school's website as necessary. If the school is required to operate in a remote or hybrid environment, the school will ensure parents are provided the necessary resources, strategies, and training to support their students' learning. All official school communication is translated into students' home languages as necessary.

Phase 5 Operations

The school will continue to follow all recommendations as outlined in Phase 4 including:

- ✓ Providing proper cleaning and disinfecting janitorial services. This is provided in partnership with Aramark who handles the following:
 - Audit and order any necessary materials or supplies for cleaning or disinfection
 - Summer deep cleaning, maintenance, and building improvements such as handwashing signs, social distancing reminders, etc.
 - Providing additional training for employees on cleaning and disinfecting for COVID-19
- ✓ Conducting a facility walk-through in partnership with the janitorial services team to ensure that classrooms, common spaces, and the exterior are ready for staff and students to return.
- ✓ Monitoring the school's budget as necessary to adjust for potential changes in enrollment, staffing needs, and state funding changes
- ✓ Following all federal, state, and local guidelines regarding food service
- ✓ Monitoring staffing in partnership with NHA's People Services Department for the upcoming school year and throughout to:
 - Assess additional responsibilities for staff;
 - Redeploy staff as needed;
 - Recruit, interview, and hire school personnel as needed.

- 
- ✓ Creating and modifying master teaching schedules, arrival/dismissal procedures and schedules, and bell schedules with student and staff health and safety in mind
 - ✓ Providing each scholar with a laptop and necessary technological supports

Food Service

Our students will eat lunch in the classroom. While in hybrid, we may implement a weekly rotation for one grade-level to eat lunch in the gym to allow more socialization. Our tables are 12 feet long, so it would allow enough space for students to eat while also being able to talk casually with peers. Sneeze carts are being added to food carts for food delivery. Cutlery, seasonings, and sauces are being directly placed on disposable trays. Our lunch vendor is also receiving additional training on health, safety, and sanitation practices.

As we embark on an uncertain new school year, the school will remain flexible and adapt as needed to the changing needs of its students, staff, and community and this plan will be amended as necessary.
