

Atlanta Heights Charter School Board of Directors To:

Subject: 2024-25 Amended Budget

October, 17 2024 Date:

Please find attached the Amended budget for the 2024-25 school year for your consideration and approval. This budget is being amended to reflect the most current information available at this time.

The budget has been constructed with the following assumptions:

667 students 27 classrooms utilized \$13,094 per pupil funding

Student counts and staffed classrooms shown above are as of fall 2024 and do not necessarily reflect the blended or fulltime equivalent counts used by states to determine state aide funding. Each state has a different method of measuring student counts for purposes of allocating funds.

There are five similar reports included in this package:

The first report, entitled "A Resolution of the Board of Directors", is for your approval of the Amended budget as it is presented. A signed board resolution is required as an acknowledgement of the board's approval of the budget. The budget is presented in two funds:

The General Fund contains the activity of the school pertaining to the general or main funcitons at the school. This fund contains the primary revenue sources such as state and local student aid and the pirmary expenditures.

The School Service Fund contains the activity for the food service program at the school. This fund includes the revenue generated for the food service program from federal (Department of Agriculture) and state sources, as well as from parents. It also includes the expenditures related to the food service program. We recognize that the School Service Fund may need support from the General Fund to balance revenue and expense. When necessary, a fund transfer is indicated on the "Transfer between funds" line.

The total of these funds will be the basis for the comparisons on the following pages.

The second report, entitled "2024-25 Amended Budget Detail", shows the Amended budget for the current school year at a greater level of detail. For your reference, the supplemental revenue and expense associated with the COVID pandemic are separated, with columns showing the budget with and without these additional dollars.

The third report, entitled "2024-25 Amended Budget Comparison to 2024-25 Initial Budget", compares the Amended budget for the current school year to the Initial budget that was presented to the board for approval in the spring of 2024.

Changes between the budgets are primarily due to expected changes in student counts and classrooms, as well as updates to funding amounts and costs. The Amended budget that is being presented at this time is based on actual student enrollment for fall 2024 and updated funding information. We also have more information about available grant allotments and the investment plans for those allotments, which may result in variances when compared to the budget presented last spring. The 2024-25 Initial Budget included placeholders for anticipated grant investments, but in many cases the budget preceded the actual investment planning. As a result, there may be significant shifts in expense categories particularly for COVID-related grants. Any changes in grant revenue will have an accompanying change in grant expense. Because the budget being presented is for fiscal year 2024-25 only, it may not reflect all grant dollars

awarded; often, grant investments cross fiscal years and are budgeted accordingly. The Amended budget reflects the anticipated grant investment for the 2024-25 fiscal year.

For comparison, the initial budget presented to you last spring was based on the following assumptions:

760 students 28 classrooms utilized \$12,354 per pupil funding

The fourth report, entitled "2024-25 Amended Budget Comparison to 2023-24", compares the unaudited actual results from the prior school year, the most recent board approved budget (as of the date of this memo), and the proposed amended budget for the current school year.

The fifth and final report, entitled "2024-25 Amended Budget Detail Comparison to 2024-25 Initial Budget Detail", provides a more detailed view of the comparison between the proposed Amended budget for the current school year with the Initial budget that was presented to the board for approval in the spring of 2024.

Following is a brief explanation of budget line items:

REVENUES:

State Aid – The per pupil funding provided by the state for general education.

Other State Sources - The portion of state funding allocated for special education, as well as grant funds issued by the state and state funding for food services, where applicable.

Local Sources - Special education funds that flow through the local school district, as well as grant funds and student aid issued by local municipalities.

Federal Sources – Grant funds issued by the federal government, such as charter school grants and entitlement program grants for specific education purposes. Also included in Federal Sources is the Department of Agriculture reimbursement for the food services program. ESSER grants and most other COVID-related grant funds are also from Federal sources. Covid-related funding will expire early in the 2024-25 school year, ending four years of increased federal and state revenue to support learning loss. This will be reflected in decreases in both revenue & related expenses.

Private Sources – Any non-governmental funds, e.g., privately funded grants, including those from authorizers or private foundations, as well as any amount paid to the school by parents.

Contribution from NHA - The contribution from NHA if the overall revenues are not sufficient to cover all expenses.

EXPENDITURES:

Instruction:

Basic Instruction – Expenses incurred for the basic educational experience at the school including items such as, salaries and benefits for teachers, curriculum and textbooks, classroom supplies and student technology. Investment of ESSER and other COVID-related grants for before and after-school tutors, teacher stipends, supplemental curricular tools, and classroom supplies and technology are included in Basic Instruction. Board discretionary expenses are also included in the budget in Basic Instruction. Since we cannot anticipate how the Board will utilize these funds, they are included in Basic Instruction. When the funds are spent, they will be accounted for in the appropriate expense category.

Compensatory Education – Costs associated with at-risk programs designed to meet the needs of children who are academically or economically challenged. Costs include items such as salaries and benefits for interventionists,

supplemental curricular tools and teaching materials, and classroom supplies. ESSER and other COVID-related grants specifically planned for at-risk students and summer school are included in Compensatory Education.

Special Education - Expenses for serving students with special education needs in the classroom, including costs incurred in the Resource Room and for individual aides within a classroom setting.

Support Services:

Pupil Services - Costs related to special education students' individualized instruction, including speech language services, occupational therapy, physical therapy, social work services, and psychology services. Also included are health services for the general school population (including social work and nurse services, where applicable), health supplies, and other pupil support, such as wages for recess aides. Investment of ESSER and other COVID-related grants for supplemental social emotional services is included in Pupil Services.

Instructional Staff Support - Costs for services focused on working with staff to better enhance the educational experience for all students. Included in this category are salaries and benefits for deans and library/technology personnel, and supplies and equipment for these school functions. Professional development costs for teaching staff are also included here. Investment of ESSER and other COVID-related grants for program coordination and staff professional development is included in Instructional Staff Support.

Board of Education – Services for Board support such as legal and audit costs, board insurance, and NHA board relations assistance.

Executive Administration - Support services representing the general administration and oversight from the authorizer (where applicable) and NHA.

School Administration - Costs associated with operating the school office, including salaries and benefits for the principal and office staff, office supplies, postage, printing, and general fees.

Other School Administration – Services in support of student admissions and parent relations (including marketing and advertising investment) and support to ensure school quality. Salaries and benefits for admissions representatives and school ambassadors are included as Other School Administration.

Business & Internal Services - Shared services costs for accounting, financial reporting, payroll, purchasing, and compliance services.

Central Services – Costs associated with the recruiting and hiring of staff, employee relations, and benefits management, and development and deployment of marketing and technology strategies. Also included is the design and delivery of professional development to school leadership.

Operations & Maintenance - Costs related to leasing, maintaining, and operating the school facility, and the purchase of any general equipment for use in the building. Costs related to maintaining school safety and security are also included.

Other Support Services:

Pupil Transportation Services - Costs related to transporting pupils to and from school, including for field trips and as required by special education students' individualized education plans.

Other Support Services – Costs related to activities that are supplemental to the academic program, such as athletics and food services. These costs include stipends for coaches, salaries and benefits for personnel supporting food programs, and travel, equipment and supplies related to these activities.

Community Services:

Community Activities - Costs related to activities, such as Communities in Schools and parental involvement (including those funded with ESSER or COVID-related grants). Salaries and benefits for student family liaisons, (where applicable) are included in Community Activities.

<u>Welfare Activities</u> – Costs related to meeting the personal needs of economically disadvantaged students. Investment of ESSER and other COVID-related grants for supplies for students experiencing homelessness and for student uniforms are included in Welfare Activities.

If you have any questions on this, please direct them to your Partner Services Representative.
