MICIP Portfolio Report

Oakside Prep Academy

Improve Math State Proficiency

Status: ACTIVE

Statement: Our goal is to implement a math instruction and intervention plan to achieve a schoolwide math proficiency of 25% on state tests by 2028.

Created Date: 03/12/2021

Target Completion Date: 10/28/2028

Strategies:

(1/4): Bridges Math

Owner: Amy Tansel

Start Date: 03/22/2021

Due Date: 06/16/2028

Summary: Teachers use number talks, number sense routines, and/or other math routines three to five times a week for five to 20 minutes. The strategy allows students to focus on making sense of mathematics, using mathematical language, and communicating their reasoning. Talks and routines should have multiple access points and support active student engagement. For more resources, see the strategy "Improving Classroom Mathematical Discourse."

(2/4): Illustrative Mathematics Curricula

Owner: Chanda Levene

Start Date: 03/22/2021

Due Date: 06/16/2028

Summary: IM Math is a problem-based core curriculum designed to address content and practice standards to foster learning for all. Students learn by doing math, solving problems in mathematical and real-world contexts, and constructing arguments using precise language. Teachers can shift their instruction and facilitate student learning with high-leverage routines to guide learners to understand and make connections between concepts and procedures. This shift occurs when each mathematics teacher, Special Education teacher, paraprofessional and building administrator engages in intensive, ongoing professional learning and coaching to sustain implementation of the resource with fidelity.

(3/4): Instructional Coaching/Consulting for Mathematics

Owner: Amy Tansel

Start Date: 03/22/2021

Due Date: 06/16/2028

Summary: "

Instructional coaching is a supportive, job-embedded, ongoing, and personalized form of professional learning focused on the teaching of mathematics. Instructional coaches partner with teachers to empower and support them in increasing student learning, developing robust mathematical identities, and developing students' mathematical sense-making abilities. To do this, Instructional Coaches collaborate with teachers to get a clear picture of current reality, identify goals, pick teaching strategies to meet the goals, monitor progress, and problem solve until the goals are met. The work of developing trusting relationships with teachers and collaboratively engaging in the coaching cycle form the foundation of the work of coaching."

(4/4): Math Recovery

Owner: Natalie Stephens

Start Date: 04/13/2021

Due Date: 06/16/2028

Summary: "The Math Recovery® professional development opportunities are aimed at a variety of mathematics educator roles and grade levels from K-8:

- Add+VantageMR® courses empower teachers to use dynamic diagnostic assessments to make data-driven instructional decisions.
- Math Recovery Specialist courses provide a complete intervention curriculum to participants preparing them to provide targeted intervention and support mathematics initiatives.
- Courses for those who want to teach Math Recovery® to others in their district. Participants who have taken our leadership courses are able to scale delivery of Math Recovery® professional development to enact cost-effective systemic change. "

Increase Daily Student Attendance & Decrease Stude...

Status: ACTIVE

Statement: Our goal is to provide incentives and community resources to achieve an average daily attendance of 92% or higher and to decrease student attrition below 10% by 2028.

Created Date: 03/18/2021

Target Completion Date: 06/16/2028

Strategies:

(1/3): Positive Behavioral Intervention and Supports (PBIS)

Owner: Amy Tansel

Start Date: 02/04/2025

Due Date: 06/16/2028

Summary: PBIS is a three-tiered framework for improving and integrating systems, data and practices to improve student outcomes, to reduce exclusionary disciplinary practices and to support teacher outcomes. Implementation addresses systems, data and practices to increase student academic, social and emotional outcomes. Student support is provided according to three tiers based on student needs. It's a schoolwide approach that addresses the needs of all students with disabilities

(2/3): Family Engagement Tied to Learning

Owner: Amy Tansel

Start Date: 02/04/2025

Due Date: 06/16/2028

Summary: Research shows that family engagement is most effective when focused on specific student outcomes. Authentic family engagement involves families partnering with schools and community organizations to support and monitor their children's educational and behavioral goals. High-quality family engagement is strongly linked to improved learning outcomes, including higher academic achievement, better attendance, more positive attitudes toward school, and increased graduation rates. A meta-analysis of 28 studies found a strong, significant relationship between family engagement and student achievement from early childhood through high school. Activities that set high expectations and help students connect learning to real-world experiences are the strongest predictors of success.

(3/3): Early Warning Intervention and Monitoring System (EWIMS) - General

Owner: Amy Tansel

Start Date: 02/04/2025

Due Date: 06/16/2028

Summary: EWIMS is a systematic approach to using data to identify students who are at risk of not graduating on time, assign students flagged as at risk to interventions, and monitor at-risk students' response to intervention. The EWIMS model provides schools with guidance to implement a seven-step process, supported by the use of an early warning data tool. The tool uses validated indicators, based on prior research, to flag students who are at risk of not graduating on time and allows schools to assign students to interventions and monitor their progress. The indicators used to flag at-risk students in the tool are chronic absence (missed 10 percent of instructional time or more), course performance (failed any course or a grade point average (GPA) below 2.0, behavioral problems (suspended once or more), and an off-track indicator (failed two or more semester-long or three or more trimester-long core courses or accumulated fewer credits than required for promotion to the next grade). The EWIMS model is intended to help schools efficiently use data to identify at-risk students and provide targeted supports.

Improve EL Special Populations Math Proficiency of...

Status: ACTIVE

Statement: Our goal is to implement a math instruction and intervention program to increase the EL special populations' state proficiency scores in math to 25% on state tests by 2028.

Created Date: 12/12/2024

Target Completion Date: 12/31/2028

Strategies:

(1/4): Whole School, Whole Community, Whole Child Framework (WSCC)

Owner: Amy Tansel

Start Date: 12/13/2024

Due Date: 12/31/2028

Summary: "All educators want to improve the work they do for students, their families, and the community. Whether it's instruction, school climate, leadership, family engagement, or any of the other issues schools face on a daily basis, all educators need tools to help them improve their actions and methods. A whole child approach, which ensures that each student is healthy, safe, engaged, supported, and challenged, sets the standard for comprehensive, sustainable school improvement and provides for long-term student success. The Whole Child approach is an effort to transition from a focus on narrowly defined academic achievement to one that promotes the long-term development and success of all children."

(2/4): Engaging All Families to Enhance Learning

Owner: Amy Tansel

Start Date: 12/13/2024

Due Date: 12/31/2028

Summary: Effective family engagement requires meeting families where they are at, not where others want them to be. This means meeting the needs of all families because all voices have value, and the voices of families is a key component to the effectiveness in their children's educational success. Traditional educational practices may not provide sufficient opportunities for all families to engage in their children's education (McIntyre and Garbacz, 2014). All families want to be engaged and supportive in their child's educational success. However, the changing needs of families and the changing nature of education may require providers, programs, staff, school and families to rethink what might have worked in the past or traditional methods of engagement to reach more families in authentic methods that honor all learners and their homes. Tailored services are responsive to differences in race, ethnicity, culture, language, religion, education, income, family configuration, geographic location, ability, and other characteristics that contribute to human uniqueness (Donovan & Cross, 2002). Research supports the value of family engagement as a predictor of academic achievement and the need to design interventions that target parenting practices for the highest risk students.

(3/4): Professional Learning Communities/Collaboration - A Districtwide Framework for Success

Owner: Amy Tansel

Start Date: 12/13/2024

Due Date: 12/31/2028

Summary: Effective adult collaboration in school districts ensures alignment of goals, consistency in instructional practices, and a supportive professional environment. When adults work together purposefully, it fosters innovation, reduces professional silos, and models the teamwork and interpersonal skills that benefit students. Defined professional roles and protocols for collaboration creates a culture of trust, shared responsibility, and collective efficacy among educators, administrators, and staff to drive improved outcomes for students. A strong system of collaboration results in improved teacher efficacy, consistency in practices, stronger relationships among staff, and ultimately, better student achievement and well-being. This strategy is a system level strategy, which includes collaboration at all levels within a district with all stakeholders.

(4/4): Equitable Allocation of Resources

Owner: Amy Tansel

Start Date: 12/13/2024

Due Date: 12/31/2028

Summary: Equitable allocation of resources in schools involves strategically distributing and utilizing financial, human, and material resources to meet the diverse needs of students, families, and staff, to ensure all students have the support and opportunities they need to experience empowering, rigorous, learning outcomes, regardless of background. This practice ensures all students have access to the tools, opportunities, and support required for success, focusing on the effective allocation and use of resources based on the specific needs of the student, rather than equal distribution alone.

Buildings: All Active Buildings
