Arbor Preparatory High School

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and the major fund of Arbor Preparatory High School (the "School") as of and for the year ended June 30, 2024 and the related notes to the financial statements, which collectively comprise Arbor Preparatory High School's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of Arbor Preparatory High School as of June 30, 2024 and the respective changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the School and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Board of Directors
Arbor Preparatory High School

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison schedule be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 9, 2024 on our consideration of Arbor Preparatory High School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Arbor Preparatory High School's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Arbor Preparatory High School's internal control over financial reporting and compliance.

October 9, 2024

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To Management and the Board of Directors
Arbor Preparatory High School

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the governmental activities and the major fund of Arbor Preparatory High School (the "School") as of and for the year ended June 30, 2024 and the related notes to the basic financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated October 9, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the School's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management and the Board of Directors
Arbor Preparatory High School

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Plante & Moran, PLLC

October 9, 2024

This section of the annual financial report for Arbor Preparatory High School (the "School") provides an overview of the School's financial activities as of and for the fiscal year ended June 30, 2024. It should be read in conjunction with the financial statements, which immediately follow this section.

Using This Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the School financially as a whole. The school-wide financial statements provide information about the activities of the whole School, presenting both an aggregate view of the School's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term and what remains for future spending. The fund financial statements look at the School's operations in more detail than the school-wide financial statements by providing information about the School's most significant fund, the General Fund.

Budgetary Comparison Schedule - General Fund

Reporting the School as a Whole - Government-wide Financial Statements

One of the most important questions asked about the School is, "As a whole, what is the School's financial condition as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the School's financial statements, report information on the School as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account, regardless of when cash is received or paid.

The School's net position - the difference between assets and liabilities, as reported in the statement of net position - is one way to measure the School's financial position. The relationship between revenue and expenses is the School's operating results. The School's goal is to provide services to our students, not to generate profits as private sector companies do. One must consider nonfinancial factors, such as the quality of the education provided and the safety of the School, to assess the overall health of the School.

The statement of net position and the statement of activities report the activities of the School, all of which are classified as governmental. These activities encompass all the School's services, including instruction and support services. State aid (based on student count) and state and federal grants finance most of these activities. The School has entered into a services agreement (the "agreement") with PrepNet, LLC (PrepNet), which requires PrepNet to provide administration; strategic planning; and all labor, materials, equipment, and supervision necessary for the provision of educational services to students. As part of the consideration received under the agreement, PrepNet also provides the facility in which the School operates. Under the terms of the agreement, PrepNet receives as remuneration for its services an amount equal to the total revenue received by the School from all revenue sources.

Arbor Preparatory High School

Management's Discussion and Analysis (Continued)

Reporting the School's Fund Financial Statements

The School's fund financial statements provide detailed information about the most significant funds, not the School as a whole. Some funds are required to be established by state law. However, the School establishes other funds to help it control and manage money for particular purposes or as required by state law (the School Service Fund is an example). The governmental funds of the School use the following accounting approach:

Governmental Funds

All of the School's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting. Only the revenue that is measurable and currently available is reported. Liabilities are recognized when incurred. The governmental fund statements provide a short-term view of the operations of the School and the services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the School's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in reconciliations presented as part of the statements.

The School as a Whole

Recall that the statement of net position provides the perspective of the School as a whole. The following table provides a summary of the School's net position as of June 30, 2024 and 2023:

	Governmental Activities	
	2024	2023
	(in thousands)	
Assets - Current	\$ 719.6	\$ 702.6
Liabilities - Current	695.6	651.3
Net Position - Unrestricted	\$ 24.0	\$ 51.3

The unrestricted net position of governmental activities represents the accumulated results of life-to-date operations. These assets can be used to finance day-to-day operations without constraints, such as legislative or legal requirements. The results of the current-year operations for the School as a whole are reported in the statement of activities, which shows the change in net position.

The results of operations for the School as a whole are reported in the summarized statement of activities below, which shows the changes in net position for the fiscal years ended June 30, 2024 and 2023.

Arbor Preparatory High School

Management's Discussion and Analysis (Continued)

	Governmental Activities	
	2024	2023
	(in thousands)	
Revenue		
Operating grants	\$ 907.5	\$ 888.8
General revenue:		
State aid not restricted to specific purposes	2,760.7	2,564.6
Private source - PrepNet	2,041.2	1,900.4
Total revenue	5,709.4	5,353.8
Expenses		
Instruction	2,105.7	1,906.7
Support services	3,630.9	3,430.7
Food services	-	0.6
Community services	0.1	-
Depreciation (unallocated)	-	0.9
Total expenses	5,736.7	5,338.9
Special item - Transfer of operations	-	(9.4)
Change in Net Position	(27.3)	5.5
Net Position - Beginning of year	51.3	45.8
Net Position - End of year	\$ 24.0	\$ 51.3

As reported in the statement of activities, the cost of all of our governmental activities this year was \$5,736.7 thousand. These activities were primarily funded by the School's state aid (based on student count) and governments and organizations that subsidized certain programs with grants. Revenues – Private source – PrepNet also represent a contribution granted by PrepNet for excess of academy expenditures over public revenues available.

The School experienced a decrease in net position of \$27.3 thousand in 2024. Under the terms of the agreement with PrepNet, PrepNet provides a spending account to the board of directors for discretionary expenditures. The primary reason for the change in net position is the timing of these discretionary expenditures.

During the year ended June 30, 2023, food service operations of the School were transferred to a designated School Food Authority (SFA) under an alternate agreement, and the School relinquished authority over its food service operations to the SFA, resulting in the special item for the transfer of operations reported in the 2022-2023 fiscal year.

Fund Financial Statements

As we noted earlier, the School uses funds to help it control and manage money for particular purposes or as required by state law. Looking at funds helps the reader consider whether the School is being accountable for the resources that the State and others provide to it and may provide more insight into the School's overall financial health.

The School's instruction and support services activities are reported in the General Fund. The School's fund balance was \$24,011 at June 30, 2024.

General Fund Budgetary Highlights

Over the course of the year, the School revises its budget to reflect changes in revenue and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. The final amendment to the budget was adopted in June 2024. A schedule showing the School's original and final budget amounts compared with amounts actually paid and received is provided in the required supplementary information of these financial statements.

Arbor Preparatory High School

Management's Discussion and Analysis (Continued)

Budgeted revenue for the General Fund was increased by \$110.8 thousand from the original budget. Revenue was changed to reflect the following:

State sources	Decrease
Federal sources	Decrease
Interdistrict sources	Increase
Private sources	Decrease
Private source - PrepNet	Increase

Budgeted expenditures for the General Fund were increased by \$120.5 thousand. This change was to reflect the change in anticipated funding. Significant variances between the final budget and actual amounts are disclosed in the notes to the financial statements (refer to Note 2).

Capital Assets

At June 30, 2024, the School had fully depreciated capital assets, primarily other equipment. Capital assets are substantially provided as part of the agreement with PrepNet.

General Economic Factors and Next Year's Budgets

Our officials and administration consider many factors when setting the School's 2024-2025 fiscal year budget. One of the most important factors affecting the budget is our student count. The state foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2025 fiscal year is expected to be 90 percent and 10 percent of the October 2024 and February 2024 student counts, respectively. The budget was adopted in May 2024. Approximately 54 percent of total General Fund revenue is from the foundation allowance. As a result, the School's funding is heavily dependent on the State's ability to fund local school operations. Based on early enrollment data at the start of the 2025 school year, we anticipate that the fall count will be close to the estimates used in creating the 2025 budget. Once the final student count and related per pupil funding are validated, state law requires the School to amend the budget if actual school resources are not sufficient to fund original appropriations.

Since the School's revenue is heavily dependent on state funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue to fund its appropriation to public school academies. The State periodically holds a revenue estimating conference to estimate revenue. If the State estimates funds are not sufficient to fund the appropriation, the legislature must revise the appropriation or proration of state aid will occur.

Contacting the School's Management

The financial report is designed to provide users of the report with a general overview of the School's finances and to demonstrate the School's accountability for the money it receives. If you have questions about this report, contact the chief financial officer of National Heritage Academies, Inc. at 3850 Broadmoor SE, Grand Rapids, MI 49512.

Note 1 - Nature of Operations

Arbor Preparatory High School (the "School") is a Michigan public school that provides education based on rigorous teaching methods, parental involvement, student responsibility, and basic moral values. The School provides education, at no cost to the parent, to students in ninth through twelfth grade. Enrollment is open to all appropriately aged children without regard to gender, ethnic background, disability, and/or religious affiliation. The School operates under a charter contract approved by Bay Mills Community College, which is responsible for oversight of the School's operations. The charter contract expires on June 30, 2027 and is subject to renewal. Bay Mills Community College Board of Trustees receives 3 percent of state aid funds as an administrative fee. The total administrative fee for the year ended June 30, 2024, paid to the Bay Mills Community College Board of Trustees, was \$90,001.

The School is exempt from taxation as a governmental entity pursuant to Internal Revenue Code Section 115. The School qualifies for public charity status by meeting the requirements of Internal Revenue Code Sections 509(1) and 170(b)(1)(A)(ii).

The School's primary source of revenue is provided by the State of Michigan and consists of an amount per student multiplied by weighted-average student counts. The state revenue is recognized ratably over the school year and is funded through payments from October 2023 through August 2024.

The board of directors of the School has entered into a services agreement (the "agreement") with PrepNet, LLC (PrepNet), which requires PrepNet to provide administration; strategic planning; and all labor, materials, equipment, and supervision necessary for the provision of educational services to students. As part of the consideration received under the agreement, PrepNet also provides the facility in which the School operates. The agreement will continue until the termination or expiration of the charter contract, up to a maximum of five years, unless at least 90 days' written notice of intent to terminate or renegotiate is given by either the School or PrepNet.

Under the terms of the agreement, PrepNet receives as remuneration for its services an amount equal to the total revenue received by the School from all revenue sources.

Revenue - Private source - PrepNet represents a contribution granted by PrepNet for excess school expenditures over public revenue available. Per the School's management agreement with PrepNet, although not always required, PrepNet will make contributions to the School in the event that school expenditures are in excess of revenue. The management agreement's term coincides with the charter agreement, which expires on June 30, 2027.

Note 2 - Summary of Significant Accounting Policies

School-wide and Fund Financial Statements

The school-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the school-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenue not classified as program revenue is reported instead as general revenue.

Note 2 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

School-wide Statements

The school-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

When an expense is incurred for purposes for which both restricted and unrestricted net position or fund balance are available, the School's policy is to first apply restricted resources. When an expense is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the School's policy to spend funds in this order: committed, assigned, and unassigned.

Fund-based Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Revenue not meeting this definition is classified as a deferred inflow of resources. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. The contracted service fee to PrepNet is recorded consistent with the recognition of revenue.

Fund Classification

The financial activities of the School are organized on the basis of funds. The operation of each fund is accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, revenue, and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Governmental Funds

Governmental funds include all activities that provide general governmental services that are not business-type activities. Governmental funds can include the General Fund, special revenue funds, debt service funds, capital project funds, and permanent funds. The School's fund, which is a major fund, is the General Fund.

General Fund

The General Fund is used to account for the general educational programs of the School. Its revenue is derived primarily from the State of Michigan.

Capital Assets

Capital assets, which include other equipment, are reported in the applicable governmental column in the school-wide financial statements at historical costs of more than \$5,000 and an estimated useful life in excess of 1 year. Other equipment is depreciated using the straight-line method over useful lives of 3-10 years.

The School has Capital Assets with a cost of \$14,310, which are fully depreciated.

Note 2 - Summary of Significant Accounting Policies (Continued)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue, expenses, and expenditures during the reporting period. Actual results could differ from those estimates.

Cash

Cash as of June 30, 2024 represents bank deposits that are covered by federal depository insurance. Accordingly, there are no investments that are required to be categorized according to risk.

Unavailable and Unearned Revenue

Unavailable revenue is reported in connection with receivables for revenue that is not considered available and measurable to liquidate liabilities of the current period. Unearned revenue is reported in connection with funds that have been received for services that have not been performed and is, therefore, not yet earned. As of June 30, 2024, a deferred inflow for unavailable revenue was recognized for \$112,983 and a liability for unearned revenue was recognized for \$181,281.

Contracted Service Fee Payable

Contracted service fee payable as of June 30, 2024 represents a timing difference between funds received from governmental sources and amounts payable to PrepNet in accordance with the agreement.

Net Position

Net position may be classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and is reduced by current balances of any outstanding borrowings used to finance the purchase or construction of those assets. The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the remaining net position that does not meet the definition of invested in capital or restricted.

Fund Balance

Fund balances may be classified as nonspendable, restricted, committed, assigned, or unassigned. The terms nonspendable and restricted are used either to indicate that certain assets do not represent spendable resources available for general educational programs or to earmark a portion of fund balance as legally segregated for a specific future use. The term committed represents amounts that can only be used for the specific purpose determined by a formal resolution of the board. The term assigned is used to classify the fund balance intended to be used by the board but does not meet the criteria to be restricted or committed. The term unassigned is used for amounts that have not been restricted, committed, or otherwise assigned for future uses. At June 30, 2024, the School had \$11,170 in committed fund balance and \$12,841 in unassigned fund balance. The committed fund balance has been committed by resolutions of the board of directors for student, parent, and staff appreciation; athletics; and board training and development.

Budgetary Information

Annual budgets are adopted on a basis utilizing generally accepted accounting principles and consistent with state law for the General Fund.

Note 2 - Summary of Significant Accounting Policies (Continued)

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the School to have its budget in place by July 1. The budgets can be amended by the board of directors as considered necessary. The budgets were amended to increase budgeted revenue and expenditures for the General Fund by \$100,819 and \$120,496, respectively.

During the year ended June 30, 2024, the School incurred expenditures within the General Fund that exceeded appropriations at the fund level by \$63,368. This overage was funded by revenue in excess of amounts budgeted of \$32,318, and the remaining was funded by the beginning of year fund balance within the General Fund.

During the year ended June 30, 2024, the School incurred expenditures within the General Fund that were significantly in excess of amounts budgeted as follows:

	Budget	Actual
Pupil	\$ 316,577	\$ 353,099
Business	74,618	86,690
Pupil transportation services	1,119	24,921

Upcoming Accounting Pronouncements

In December 2023, the Governmental Accounting Standards Board issued Statement No. 102, *Certain Risk Disclosures*, which requires governments to assess whether a concentration or constraint makes the government vulnerable to the risk of a substantial impact. It also requires governments to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. If certain criteria are met for a concentration or constraint, disclosures are required in the notes to the financial statements. The provisions of this statement are effective for the School's financial statements for the year ending June 30, 2025.

In April 2024, the Governmental Accounting Standards Board issued Statement No. 103, *Financial Reporting Model Improvements*, which establishes new accounting and financial reporting requirements, or modifies existing requirements, related to the following: management's discussion and analysis; unusual or infrequent items; presentation of the proprietary fund statement of revenue, expenses, and changes in fund net position; information about major component units in basic financial statements; budgetary comparison information; and financial trends information in the statistical section. The provisions of this statement are effective for the School's financial statements for the year ending June 30, 2026.

Note 3 - Due from Governmental Revenue Sources

Receivables as of June 30, 2024 for the School included \$522,197 in state aid receivable, \$93,562 in federal grants receivable, \$49,181 in other state receivable, and \$35,753 in other receivables. The School considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded.

Note 4 - Risk Management

The School is exposed to various risks of loss related to general liability. Commercial insurance policies to cover certain risks of loss have been obtained. There have been no significant reductions in insurance coverage during fiscal year 2024, and claims did not exceed coverage less retained risk deductible amounts in the past three fiscal years.

June 30, 2024

Note 5 - Contingencies

The School has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

Note 6 - Leases

The School has entered into a sublease agreement with PrepNet for a facility to house the School. The lease term is from July 1, 2023 through June 30, 2024. Annual rental payments required by the lease are \$1,116,000, payable in 12 monthly payments of \$93,000. This lease is automatically renewed on a year-to-year basis unless a notice of nonrenewal is provided by either the School or PrepNet. The lease agreement can be canceled upon termination of the PrepNet services agreement.

The School is not a party to any leasing arrangements that meet the criteria for recognition of lease assets or liabilities under GASB Statement No. 87, *Leases*, based on the noncancelable period being less than 12 months and applicability of the short-term lease exception for the facility lease agreement.

The School subsequently renewed the sublease with PrepNet for the period from July 1, 2024 through June 30, 2025 at the same rental rate.
