

Brooklyn Dreams Charter School

Independent Auditors' Report on Communication of
Internal Control Matters

June 30, 2022

Board of Trustees
Brooklyn Dreams Charter School

In planning and performing our audit of the financial statements of Brooklyn Dreams Charter School (the "School") as of and for the year ended June 30, 2022, in accordance with auditing standards generally accepted in the United States of America, we considered the School's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a deficiency in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the School's internal control presented in Addendum A to be a significant deficiency.

We have other observations and recommendations that are opportunities for strengthening internal control and/or operating efficiency, presented in Addendum B to this letter.

This communication is intended solely for the information and use of management, the Board of Trustees, federal, state, and local awarding agencies, The Charter Schools Institute of the State University of New York, The State Education Department of the State University of New York, and others within the School and is not intended to be used by anyone other than these specified parties.

We would like to take this opportunity to acknowledge the courtesy and assistance extended to us by the personnel of the School during the course of our audit.

Addendum A

Deficiencies in Internal Control that We Consider to be Significant Deficiencies

1. General Ledger Maintenance and Account Analysis

During our audit we noted account analysis schedules were not fully reconciled and supported by all the backup documentation. Improvements are needed in the financial statement closing process to address the accuracy and timeliness of the School's year-end financial reporting.

We recommend that the School assess the adequacy of resources in the finance department in relation to its periodic and year end reporting responsibilities. The School may consider an increased level of financial analysis of significant accounts on a regular basis, as well as providing additional support to the finance department in the area of financial reporting.

Addendum B

Other Observations and Recommendations for Strengthening Internal Control and/or Operating Efficiency

2. Maintenance of Student Files

During our test of 22 student files, we noted four students files did not contain medical records, birth certificate, and proof of residency.

In an effort to ensure that student records are complete, we recommend that the school's checklist be utilized periodically to ensure that information is complete and updated for each student file. Management should follow up to obtain missing information for student files. All current and new student files should be annually reviewed by the School to ensure that adequate follow-up with the student's parents or guardian can be made to obtain missing student records.
