RESULTS OF AUDIT

Board of Directors
Regent Park Academy
Detroit, Michigan

We have audited the financial statements of the governmental activities and major funds of Regent Park Academy (the Academy) for the year ended June 30, 2020, and have issued our report thereon dated November 18, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards as well as certain information related to the scope and timing of our audit. We have communicated such information in our letter to you dated April 28, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Our Responsibilities under U.S. Generally Accepted Auditing Standards, Government Auditing Standards and the Uniform Guidance

As stated in our engagement letter dated April 28, 2020, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

In planning and performing our audit, we considered the Academy's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance.

As part of obtaining reasonable assurance about whether the Academy's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants. However, providing an opinion on compliance with those provisions is not an objective of our audit. Also in accordance with the Uniform Guidance, we examined, on a test basis, evidence about the Academy's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement applicable to each of its federal programs for the purpose of expressing an opinion on the Academy's compliance with those requirements. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on the Academy's compliance with those requirements.

Other Information in Documents Containing Audited Financial Statements

Generally accepted accounting principles provide for certain required supplementary information (RSI) to supplement the basic financial statements. Our responsibility with respect to the Management Discussion & Analysis, and the Budgetary Comparison Schedule, which supplement the basic financial statements, is to apply certain limited procedures in accordance with generally accepted auditing standards. However, the RSI was not audited and, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance, we do not express an opinion or provide any assurance on the RSI.

We have been engaged to report on the other supplemental information, which accompany the financial statements but are not RSI. Our responsibility for this supplementary information, as described by professional standards, was to evaluate the presentation of the supplementary information in relation to the financial statements as a whole and to report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Scope and Timing of the Audit

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit involved judgment about the number of transactions examined and the areas tested.

Our audit included obtaining an understanding of the Academy and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Material misstatements may result from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the entity or to acts by management or employees acting on behalf of the Academy.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Academy are described in Note 2 to the financial statements. We noted no transactions entered into by the Academy during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The Academy's estimate of depreciation expense is a significant estimate within the financial statements.

The disclosures in the financial statements are neutral, consistent, and clear. Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users.

Significant Audit Matters (Continued)

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit. We would like to commend management and staff on the assistance provided to us during the audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. No such misstatements were noted as a result of our audit.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 18, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Academy's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Academy's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the budgetary comparison schedule and management discussion and analysis, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

Significant Audit Matters (Continued)

Other Matters (Continued)

We were engaged to report on the supplementary schedules, which accompanying the financial statements but are not RSI.

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with U.S. generally accepted accounting principles, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

As required by 2 CFR Part 200, we have also completed an audit of the federal programs administered by the Academy. The results of that audit are provided to the Board of Directors in our report on compliance with requirements applicable to each major program and on internal control over compliance in accordance with 2 CFR Part 22, dated November 18, 2020.

Restriction on Use

This information is intended solely for the use of the Board of Directors and management of the Academy and is not intended to be and should not be used by anyone other than these specified parties.

Alan C. Young, Assoc.

Detroit, Michigan

OTHER COMMENTS AND RECOMMENDATIONS

1) FUND BALANCE IN SCHOOL SERVICE FUND

The fund balance in the School Service Fund is in excess of three months' average expenditures when considering State of Michigan rules of accumulated fund balance of non-enterprise funds. This situation also existed at June 30, 2019. The Academy is working with the Michigan Department of Education on plans to spend this balance down.

We recommend that the Academy plan for the usage of the excess fund balance to bring the balance within the three month limit.

INFORMATIONAL

State Aid Funding

State of Michigan funding for public schools continues to face many challenges for the fiscal year ended June 30, 2021. In September, 2020 a budget was passed with no cuts in the foundation allowance despite the impact of the Coronavirus pandemic on tax revenues. As a result, the Academy will continue to receive \$8,111 per pupil for the 2020-21 school year. As an additional benefit, the Academy received \$251,000 in Federal Coronavirus Relief Funds in August 2020. These funds are restricted to unbudgeted expenditures incurred between March 1, 2020 and December 30, 2020 that are necessary due to circumstances caused by COVID-19.
