

July 15, 2019

Dear Bennett Venture Academy Families:

I am writing to share that all incoming kindergarten students and new first-grade students are required by the state of Ohio's education laws to complete mandatory health screenings prior to November 1. The screenings include hearing, vision, speech, and communication, for general health or medical problems, and for developmental disorders.

This screening may be provided directly by the school, by contract with another service provider, or obtained by the parent of the student. Additional screenings will be completed during the school year and parents will be notified only if there is a need for further evaluation.

If Bennett Venture determines further screenings are required, a list of providers will be provided along with information about screening services available in the community to those who cannot afford them. For further information about health screenings, please see page 52 of the Parent and Student Handbook.

Thank you for your continued support of Bennett Venture Academy. If you have any questions, please contact the school office at 419-269-2247.

Sincerely,

Tammy Whiting
Principal
